**ANNUAL REPORT
OF THE
TOWN OF RYE
NEW HAMPSHIRE**

**FOR THE YEAR ENDED DECEMBER 31
2007**

HERE LANDED
IN THE SPRING OF 1623
THE FIRST BAND OF ENGLISHMEN
PIONEERS IN THE PLANTING OF
NEW HAMPSHIRE
CONSECRATING THIS SOIL TO THE
SERVICE OF
GOD AND LIBERTY

1623 - 1899

**ODIORNE'S POINT
MONUMENT REDEDICATION
JUNE 28, 2007**

2007

*The National Society
of the
Colonial Dames of America
in the State of
New Hampshire
requests the honor of your presence
at the Rededication of the Monument
at Odiorne's Point
in Commemoration of the Landing
of the
First Settlers in New Hampshire,
Thursday, June twenty-eighth,
at eleven o'clock
Odiorne State Park, Rye.*

*recommend walking shoes.
sun hat and folding chairs.*

ABOUT THE COVERS:

Front: At the outset of World War II, the federal government took possession of Odiorne Point in order to protect and defend the mouth of the Piscataqua River. Homes were removed, orchards were transplanted to camouflage the newly constructed bunkers and a monument dedicated in 1899, proclaiming the historical significance of the site, was moved to an out of the way location west of Route 1-A for safe keeping. Here the marker rested, out of sight and forgotten by most, until The National Society of The Colonial Dames of America in the State of New Hampshire initiated an effort to return the monument to its original location, believed to be the vicinity of David Thompson's first settlement in New Hampshire in 1623. On June 28, 2007, a large gathering, including descendents of some of Rye's earliest families, attended a rededication of the monument now returned to its original 1899 site. The work was accomplished in large measure through the efforts of resident Tom Pearson and our State Representative David Borden. Roger Philbrick was credited with donation of site work.

Inside back: Who was David Thompson?

Back: Clockwise from top left: Barbara Engelbach, President of the N.H. Chapter of The National Society of The Colonial Dames of America, resident Tom Pearson is recognized for his contribution by Rye/Newcastle Representative David Borden, wording on the reverse of the monument, N.H. Historian James Garvin addressing the gathering, entrance to Odiorne Point State Park and view of the reverse side of the monument.

To the inhabitants of the Town of Rye, in the County of Rockingham and in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Rye Elementary School in said Rye on Tuesday, the 11th of March, next at eight o'clock in the forenoon until seven o'clock in the evening for voting by official ballot on all issues before the Town of Rye under RSA 40:13.

As required under Senate Bill 2, the Deliberative Session was held on Saturday, February 2, 2008 at 9:00 AM at the Rye Junior High to review and amend the 2008 Town Warrant.

THE 2007 ANNUAL REPORT OF THE TOWN OF RYE
IS DEDICATED TO

William M. Varrell Jr.

September 21, 1936 – July 23, 2007

William M. Varrell Jr. was a native son, born to William M. Varrell and Mary (Philbrick) Varrell on September 21, 1936. Known to all as Bill, he grew up on Washington Road about a half mile from Foss Beach where, along with his sister, Cynthia, he once worked in the Salty Breeze snack bar. He was also employed at the Ocean Wave Hotel (current site of Crown Colony), one of the last large wooden Victorian hotels in Rye. The Ocean Wave was destroyed by fire in 1960. Through these early experiences, Bill developed an interest in town history and began gathering stories, newspaper clippings, and images of Rye, which he used as the basis for his first book **“Rye on the Rocks: The Tale of a Town”** published in 1962 when he was 26 years of age.

Bill served four years in the U.S. Air Force following graduation from Portsmouth High School and the University of New Hampshire. It was while studying hotel administration at UNH that his ever-present broad interest in the history of his hometown became focused on the resorts of the Victorian era. Rye holds a prominent place in his second book, **“Summer by the Sea: The Golden Era of Victorian Beach Resorts”**, which was published in 1972.

In 1966, Bill married Martha Walsh of Jamaica Plain, MA. As he was employed by Filenes, Bill and Martha compromised on choice of residence and made their home and raised their family in Ipswich, MA, another historical seaside town, where he later published “Ipswich” and “Ipswich Revisited” and involved himself in the Ipswich Historical Society. During the 1990s, Arcadia began publishing its *Images of America* series and Bill was asked to write two books including **“Rye and Rye Beach”**, published in 1995.

Rye was never far from his thoughts; and Bill returned many times to give well-attended talks and slide presentations on Rye history. He was present for the opening of the Rye Town Museum in July of 2002. Bill donated many photographs, documents and other Rye related items to the Museum including the large Farragut Hotel sign he had rescued from burial in the landfill. The Historical Society plans to transcribe tapes of his talks to preserve a complete account of the material. His books remain both entertaining reading and important references for those interested in the history of Rye as they build upon, extend and illustrate the information contained within L.B. Parsons 1905 History of Rye, N.H.

At the time of Bill’s death last July, Alex Herlihy, Chairman of the Historical Society, closed his tribute to Bill with the following words of appreciation, “Bill Varrell gave to his hometown as only a native son can, with all his heart and with all the lore and wisdom he had gained from a lifetime of being a student of Rye history. He unearthed and preserved for us the fabric of life of those who built Rye and he never forgot the village that nurtured him. We are richer for his life and work”.

In Memoriam

Richard D. Sherwin

1923 - 2007

Richard Sherwin was born June 3, 1923, a son of the late James and Catherine (Forde) Sherwin. He was raised in East Boston and graduated from Boston English High School with the class of 1941. He was a veteran of World War II serving in the Army Air Corps, rising to the rank of technical sergeant.

Richard and his wife, Edna, became residents of Rye in 1974 when he transferred to the Portsmouth Naval Shipyard from the Boston Navy Yard in Charlestown, Mass. where he was employed as a systems analyst. He retired from the Portsmouth facility in 1977.

During the early 1980s, Richard Sherwin was appointed as Deputy Building Inspector to assist Rye Building Inspector Joseph May with his increasing workload. Upon Mr. May's resignation, he was appointed Building Inspector.

Mr. Sherwin was active in the Men's Club of St. Theresa Church and enjoyed working on a variety of local charities including local soup kitchens, The Chase Home and Meals on Wheels.

Richard Sherwin died on January 4, 2007. In addition to his wife, he leaves three sons; Richard of Hampton, Edward of Rye, Tom of Newfields, and a daughter, Muriel of Newmarket, and their families. Those of us entering or exiting Rye via the intersection of Washington and Lafayette Roads will miss his carefully tended annual display of red dahlias.

Dr. Robert V. O'Brien

1923 - 2007

Robert O'Brien was born November 11, 1923 to John E. and Mary O'Brien of Portland Maine. While an infant, his family moved to Portsmouth, NH. After graduation from St. Patrick School and Portsmouth High School, Bob (as he was known to all in Rye) served in the U.S. Army Air Force from 1942 - 1946. Military service was followed by graduation from the University of New Hampshire and Tufts University where he earned a doctorate of dental medicine degree. Doctor Robert V. O'Brien established a general practice in dentistry in Portsmouth in 1952, serving his patients with care and skill for the next 35 years. In 1953, Bob and his wife, Tina, purchased a home in Rye, raised their family and remained until retirement to Florida in 1997.

For more than half of his eighty-three years, Bob O'Brien called Rye his home. During that time, in addition to devotion to family and despite the demands of his dental practice and avid interest in boating, fishing and golfing, he considered participation in the civic affairs of his town to be an important responsibility. His participation was diverse as he served his community on the Budget Committee from 1962 to 1965, the Recreation Commission (ex officio) 1965 - 1966, and the Planning Board from 1962 to 1966 (as chairman in 1963 and again in 1965). In 1969, Bob was elected to the Rye School Board. He served in that capacity until 1975. All would agree that Bob O'Brien was an eloquent and persuasive speaker for causes in which he believed such as an addition to the school.

Bob died January 12, 2007. In addition to his wife, he leaves a daughter, Kathyleen and two sons, Robert V., Jr. and Jonathan and their families. We remember the constancy of his dedication to his family, his patients and his community.

Manning L. Remick 1927 - 2007

Manning Leighton Remick was born on September 19, 1927, the son of Albert M. and Ethel (Shapleigh) Remick. A lifelong resident of Rye, he was familiarly known by his middle name, Leighton. He graduated from Hampton Academy and attended Rutgers University and was a United States Navy veteran, having served in both World War II and Korea.

Following in the footsteps of his father, a former Rye Police Chief, Leighton served the Town through the Police Department. He was Chief of Police during the early 1950s, a deputy sheriff for Rockingham County, a Rye volunteer fireman and a member of the Rye Ambulance Corps.

During the 1940s and 50s, he played semi-pro hockey with the Rye Sea Hawks and coached Rye Little League baseball.

Leighton grew up on Locke's Neck and the sea was important throughout his life. He loved fishing, setting up to 300 lobster traps a season. For several years he owned a dragger based out of Gloucester, Mass. For 32 years he was employed in the planning/estimating department of the Portsmouth Naval Shipyard.

Leighton died September 25, 2007. He is survived by his wife, Jane (Brown) Remick, and their family.

Christopher S. Christo 1923 - 2007

Christopher Christo was a long time resident of Rye, born April 6, 1923, the son of Stephen Q and Tana (Dimitri) Christo. Like so many of his generation, Christopher put his education on hold because of World War II. He left the University of New Hampshire to serve in the U.S. Army Air Corps for five years. Upon leaving the service, he returned to UNH, graduating with the class of 1949 having completed his BA degree in sociology and his master's degree in counseling. He went on to attend Suffolk University Law School.

Mr. Christo, known as Chris to his many friends, broke new ground by being the first male child-welfare worker hired by the New Hampshire Department of Welfare. Following seven years in Cheshire County, he was then hired by the N.H. Probation Department and based in Rockingham County serving as probation officer for Rockingham Superior Court in addition to all District and Municipal Courts in the county. He was promoted to southern district director, supervising both Rockingham and Strafford counties for 25 years. He was Clerk of the Rye Municipal Court from 1960 to 1999.

Chris Christo's volunteer efforts were diverse and far-reaching. During his career he assisted in the establishment of Group Homes for Juvenile Offenders in Salem and Exeter and was involved in the seacoast Big Brother/Big Sister Organizations. He helped to found the Volunteers in Probation program in Rockingham County. Through St. Nicholas Greek Orthodox Church, he chaired the Kosovo Relief Project of Portsmouth that resulted in the sending of more than forty tons of clothing to refugees in Albania.

Chris Christo died July 17, 2007. He is survived by his wife, Julie Mina Christo, his daughter Patricia, son Stephen and their families. Devoted to family, he especially enjoyed backyard barbecues; but, a person of many interests, he managed to find a little time for golf, gardening and the Red Sox.

Philip S. Drake

1925 – 2007

Philip Drake was an active and generous volunteer in the Rye and Rye Beach communities. He was the Rye Town Moderator, served three terms on the Board of Adjustment (from 1964 to 1972) and was a member of the Conservation Commission from 1965 to 1967. Philip was also a volunteer fireman and a special police officer. For many years he was a Rye Beach Precinct Commissioner.

Philip was born April 15, 1925, the son of Abbot and Charlotte (Davis) Drake. He attended Rye schools, Hampton Academy and the Ballard Academy in New London, Connecticut. At age 17, he joined the U.S. Navy, and was assigned to the aircraft carrier USS Block Island. On May 29, 1944, while on anti-submarine patrol, the Block Island was sunk by German U-boats off the Canary Islands. Philip was rescued and served the remainder of the war aboard the USS Block Island II in the South Pacific.

Following his naval discharge, Philip attended Hotel Management School in Washington, D.C. prior to returning to work at the Drake House in Rye Beach. At that time the Drake House was a seasonal hotel, built by his grandfather, Abraham, in 1872 and run by his father, Abbot. Later, Philip took over management of the Drake House. For 25 years he was also the manager of the Rye Beach Club. Philip married Joanne Tonis in 1949 and the Drake House complex was home to their family.

Growing up in Rye, Philip was an avid and skilled sailor as well as a student of nature. He also loved pond skating and was a founding member of the Rye Sea Hawks, a semi-pro hockey team formed after World War II. His knowledge of the history of Rye Beach served the community well. Philip died July 28, 2007. He is survived by his son, Frank, of Rye and his daughter, Victoria, of Lamoine, Maine and their families.

John G. Widen

1915 – 2007

John Widen was appointed Harbor Master of Rye Harbor in 1968 and remained in that position until his retirement in 1987. His obituary noted that two of the many tasks related to that position were assistance provided to families wishing to disseminate the remains of loved ones at sea and lending a hand during searches for people lost at sea. Over the years, many were grateful for his help.

John was born November 21, 1915 on Belle Isle, New Castle and was 92 years of age at the time of his death on December 30, 2007. Although his early years were spent on a farm on Ocean Road in Portsmouth, he "discovered" Rye Harbor in his early twenties and spent the next seventy years there, interspersed with trips to the rugged north country of New Hampshire to enjoy hunting, fishing and snowmobiling.

Drawn to the ocean, John tried his hand as a lobsterman with his first boat, "The Little Joe". In 1954, after John and his late wife, Aura (Clark) Widen, had purchased their white cape on Rye Harbor, he built his boat, "The Andrew J.", and fished with it until he retired in 1978. It is said that John taught three generations to fish the icy waters off the coast of Rye.

From 1974 until it was destroyed by fire in 1985, John and Aura ran Ray's Seafood & Lobster Restaurant on Ocean Boulevard. Their son, Andrew, succeeded them in running the family business on the same site. John Widen died December 30, 2007 at his Rye Harbor home. In addition to his son, survivors include two daughters, Judith and Susan and their families.

Robin Baker, Assistant Town Clerk/Tax Collector

BUILDING/PLANNING/ZONING OFFICE
Kimberly Reed, Planning/Zoning Administrator
Susan Dunfey, Building/Planning/Zoning Assistant

SELECTMEN'S REPORT

Taxes

The Rye 2007 tax rate was set in November when we met with a representative of the Department of Revenue Administration for that purpose. Commissioners from the precincts and the water district were also invited to attend. The tax rate was set at \$8.91 per \$1000 of assessed valuation. The Town portion of that rate was set at \$2.25, down 6 cents from our 2006 tax rate.

For the second year, your selectmen decided to adjust the Town tax rate through application of a portion of the budgetary unreserved fund against Town appropriations. We voted to allocate \$875,000 of the unreserved balance to reduce the 2007 Town portion of the tax rate leaving a little more than 1.3 million dollars remaining within that account. The unreserved balance fund is built over time, a combined accumulation of surplus from budgets and excess of revenue. The amount remaining in the unreserved balance account at the close of 2007 complies with State guidelines. You are advised that, while we have been able to "buy down" the Town's portion of the tax rate for several years by using previously accumulated excess reserves; we may not be able to do this as significantly in the future.

While we continue to monitor our expenses closely, there is a financial area over which we have little control. The New Hampshire Supreme Court has ruled unconstitutional part of the State's most recent education-funding formula that had allowed the Town of Rye to dedicate the Statewide Property Taxes raised in Fiscal Years 2006, 2007 and 2008 to funding education within Rye. This new funding formula resulted in a major positive financial impact for Rye after being forced since 1999 to raise an additional \$15,781,033 in Statewide Property Taxes for redistribution to other communities. Following the Supreme Court ruling, the Legislature defined "adequate education" in FY 2007 and began to cost out that definition in early 2008 with an expectation of devising a new education funding formula in the near future. However, it will not be in effect until at least FY2010. The Town of Rye, through its membership in the Coalition Communities, will continue to actively monitor the process. We do not want to see an increase in the Statewide Property Tax or a return to "Donor communities" in the new formula. The Governor believes that a narrow constitutional amendment that will allow the State to target aid is necessary to prevent a return to the "Donor" concept.

Personnel

Following the June resignation of Fire Chief Richard O'Brien, the Board of Selectmen opted to employ an interim chief. Smooth transition of department leadership was accomplished through the timely hiring of former Hampton Fire Chief William H. "Skip" Sullivan as our interim chief. Chief Sullivan's experience enabled him to seamlessly continue the ongoing work of the department to include resolution of violations at Star Island and completion of several grant proposals and then move forward in a proactive manner, devising a plan to strengthen our call fire fighter participation. On November 27th, he signed a one-year contract as Rye Fire Chief.

The Town continues to need to fill the position of Assistant Treasurer. We seek an individual interested in being trained in the treasurer's position and able to assume the responsibilities of the Treasurer in the event of illness, vacation or other absence. If you are interested in assisting the Town in this capacity, please contact Town Administrator Alan Gould at 964-5523.

Patriots Day Storm (April 15-17) and Water Issues

During the weekend of April 15-17, storm driven tides wreaked havoc along our coast, especially in the vicinity of Sawyers Beach where the shale piles were flattened and strewn about with each high tide, flooding occurred and the Boulevard was closed for several days. Cost to the Town was \$20,000 and Emergency Management Director Alan Gould later conducted a tour of the storm-ravaged area for FEMA representatives. We later received reimbursement of close to \$11,000.

Because much of Rye is near sea level, low lying areas with historically sluggish drainage, particularly during high tides, will continue to face their current problems. Numerous Department of Environmental Services (DES) permits approved during 2007 to allow beach front residents to reinforce and buttress their seawalls bear witness to concern over climate change and the predicted increasing severity of storms.

Our proposal to draw down ponds along the course of Cedar Swamp Run (as it flows from West Rye to the ocean via Eel Pond) in advance of potentially disastrous rainstorm threats met resistance, primarily from Eel Pond abutters. The discussion during one meeting on this topic also generated some thoughts about the possibility of restoration of Eel Pond to its original status as tidal marsh. Several pond abutters own portions of the land under Eel Pond. Meanwhile, the pond itself appears to be filling with silt allowing areas of phragmites and reeds to expand. Several homes abutting the pond were affected by flooding during the Patriot's Day storm. Relief from the problems associated with Eel Pond will require cooperation of property owners, the Town of Rye and the State of New Hampshire. Some discussions have been held.

Upstream at Burke's Pond, an agreement that included the Town of Rye, dam owner Ferris Bavicchi and the Abenaki Country Club was formulated that allows the Town to exercise control over the dam in emergency situations for flood mitigation purposes.

Cedar Swamp Run flows under Central Road after exiting Burke's Pond. The Mother's Day Storm of 2006 severely damaged the culvert under Central Road and temporary repairs were made at that time to assure safety. With the assistance of Steve Harding of Oest Engineers, a new 40" box culvert was installed during the summer of 2007.

In addition to coastal flooding, the heavy rainfall events of the past two years have also highlighted the most severe flooding problems in other parts of town among them the Douglas Circle portion of Rye Crest. A site walk inspection indicated that repairing and upgrading the system already in place could alleviate the threat of flood repetition there.

Over the year, a number of other sites were visited and improvements were determined and implemented for many.

Cable Road Sidewalk

Despite the fact that its early 20th century origin remains a mystery, the issue of the deteriorating Cable Road sidewalk was finally resolved in 2007. With estimates ranging from \$24,350 to repair to nearly \$100,000 to replace, we chose to repair the sidewalk and cover the cost by postponing an equivalent dollar amount of roadwork scheduled for that neighborhood.

Foyes Corner Roundabout and Seavey Creek Bridge

The construction of the long awaited roundabout at Foyes Corner was ongoing during 2007. It was declared officially open on November 20th. Completion of details such as lighting and grading will occur within the next few months. Most agree that the roundabout is working well and is a great improvement.

The Seavey Creek Bridge on Pioneer Road has also been under consideration for upgrade by the State. We have held public hearings for input and the NH Department of Transportation's revised design concepts appear to be responsive to the Town's input and appropriate to the setting at Seavey Creek. We are awaiting word on project scheduling.

New Committees Formed

During 2007, two new committees were created by the selectmen. Our current Comcast cable franchise is due to terminate June 27, 2009. In advance of renewal, the first of several public hearings (pursuant to the Federal Cable Act, NH RSA 43 and NH RSA 53-C) was held in February. We then established an ad hoc **Cable Franchise Renewal Committee** composed of the following members: Bob Brown, Rick Lewis, Paul Neiman, Ted Papoutsy, Susan Rizkalla, Mike Schwartz and Town Administrator Alan Gould. The committee has been meeting regularly. Two areas, cost and programming, are beyond our power to negotiate during the franchise renewal process.

The second committee established during the year was the **Rye Energy Committee**, suggested by approval of Warrant Article #21 of the March 13, 2007 ballot "to recommend local steps to save energy and reduce emissions". Steve and Mimi White, Jaci Grote, David Doskocil and Lucy Neiman volunteered to serve on this committee. Through the Town of Rye website, you can keep abreast of their activities, films, speakers and discussion groups (Town/energy). A complete report from this committee may be found with the other 2007 annual reports.

EAST (Estuary Alliance for Sewage Treatment)

The concern regarding EAST is ongoing. Throughout the year, we have reported on this entity, established through State Senate Bill 481 in 2004, because it has the potential to deliver the treated

wastewater of up to 44 communities to our shores. We reported in the December newsletter that the Great Bay Estuary Commission is seeking communities desirous of full membership in EAST and approval by only two towns will activate EAST legislation **which contains the power of eminent domain, without review, negotiation, or permission from local communities.**

The New Hampshire Seacoast Region Wastewater Management Feasibility Study by Metcalf & Eddy resulted in 4 alternatives: no action, treatment and discharge to the Gulf of Maine, upgrade of existing facilities, and treatment and discharge to land application. The Draft Alternatives Report dated November 2007 and a large amount of related information may be found at www.coastalclear.org.

At the urging of the Board of Selectmen, a bill (Senate Bill 523) was filed that would allow the taking or holding of land **only** "within the boundaries of municipalities which are members of EAST". This bill was sponsored by Senator Fuller Clark and Representatives Borden, Grote and Stiles. We will continue to exercise vigilance regarding this legislation.

At Risk Seniors

In closing, we include a reminder that we are compiling a list of at risk seniors and those with severe disabilities. This information may be important in the event of power failure, extreme weather, natural disaster or other emergency. To suggest the name of a relative, neighbor, acquaintance or yourself, please call Emergency Management Director Alan Gould at Town Hall (964-5523).

Volunteers

Perusal of the annual reports of our many committees and commissions will reveal a portion of the multitude of residents willing to give generously of their time and talents to make our town the remarkable place that it is. We thank each and every one of you. We urge those who may have been hesitant to get involved to give it a try. Volunteering is a wonderful way to meet others that share your interests.

Respectfully submitted,

Joseph G. Mills, Jr., Chairman
Craig Musselman, Vice Chairman
Priscilla V. Jenness

MEMORIAL DAY 2007

RYE REMEMBERS

Special thanks go to Jim Cullen, Rye VFW Post 8942, guest speaker Ed Johnson, Commandant, Marine Corps League, our Rye Recreation Department and the numerous participants at this year's Memorial Day Services held on May 28, 2007.

AROUND RYE IN 2007

RYE FIRE CHIEF WILLIAM H. "SKIP" SULLIVAN

Smooth transition of fire department leadership, following the June resignation of Fire Chief Richard O'Brien, was accomplished through the timely hiring of former Hampton Fire Chief William H. "Skip" Sullivan as our interim chief. On November 27th he signed a one-year contract as Rye Fire Chief.

ONGOING CONCERN: EAST (ESTUARY ALLIANCE FOR SEWAGE TREATMENT)

Established by SB481 in 2004, this legislation has the potential to deliver the wastewater of up to 44 communities to our shores. (See Selectmen's Report and Conservation Commission's Report)

AROUND RYE IN 2007

Tranquil and serene above, Eel Pond overflowed during the Patriots Day storm, closing the Boulevard and flooding homes, while ocean surf tore down the Sawyer's Beach shale pile with each tide.

The long awaited roundabout at Foyes Corner officially opened November 20th. Final grading and finishing touches will be completed in early 2008. Traffic calming and less pollution are anticipated.

Plans for the upgrading of Seavey Creek Bridge on Pioneer Road, Route 1-A, have been developed by NHDOT with input from the Town. We are awaiting word on project scheduling.

The NH Retirement System sets the employer's percentage bi-annually effective July 1st.
Retirement Contributions are Based on Gross Wages

* Full time employees must work a minimum Thirty Five (35) hours per week to be eligible for benefits

TREASURER'S REPORT

In 2007, \$700,000 of undesignated fund balance was used to offset the tax rate. This amount was transferred from the town's investment funds into the general fund. The lower invested principal combined with a decrease in interest rates resulted in less interest earned during this year over prior years.

In 2007 there were no new bonds or notes required by the town. June of 2008 will see the retirement of the bond for the Public Safety Building Land. The town vote in March 2003 authorized bonding for \$5,000,000 for the purpose of Conservation Land Acquisition. As of December 31, 2007 there is a balance of \$2,000,000 that can be bonded for that purpose.

It seems the town is always in need of good people for board positions, call firefighters etc. The treasurer's office is no exception. Currently the position of town deputy treasurer is vacant. If you have a financial background and are interested in getting involved with your community please contact me or the Town Administrator, Alan Gould at the Rye Town Hall, 964-5523 to apply.

I wish to thank all the boards, commissions and town employees for their cooperation and assistance over the past year.

Respectfully submitted,

Leon C. Blaisdell,
Treasurer

jane1@town.rye.nh.us

During the year 2007 this office registered 7360 vehicles and licensed 1026 dogs. We issued 43 marriage licenses and sold 1838 beach parking permits. Again this year we have experienced a reduction in the amount of money generated by vehicle registrations, even though we processed 216 more registration permits than in the previous year. Our records also show fewer title applications were processed, which translates to fewer *new* cars or trucks entering the system. We'll leave it to those who track financial trends to interpret this phenomenon. On the accompanying pages are the financial reports for the Town Clerk and Tax Collector. All revenues generated from this office are deposited to the town's general fund and help reduce our property tax rate.

Don't forget to license your dog! Every year between January 1 and April 30, all dogs need to be licensed. An up-to-date rabies certificate is required for each dog. The cost for puppies or a spayed or neutered dog is \$6.50; for an unaltered dog the fee is \$9.00. Senior citizens (those over 65 years of age) can license a dog for \$2.00.

Early in 2007 we initiated the municipal agent automation program (MAAP) in our office. As we anticipated, this new vehicle registration system has had plenty of "bugs" to work through. However, after almost a full year's experience, we can now report that it is operating relatively efficiently. MAAP integrates our registration process directly with the State of New Hampshire. When a transaction is completed in our office, the state system immediately recognizes the data and updates its records. Thus, an authorized department such as the N.H. State Police who may need access to this information will always have accurate and timely data available to them. This new system gives our office the ability to issue "moose" plates and vanity plates, and to handle many other transactions previously done only at a motor vehicle substation, thereby improving our service to our residents and saving time and travel for many.

On a personal note, I'd like to express my sincere appreciation and gratitude to all the good people with whom I've had the privilege to work over the past twenty six years. It's been my pleasure to serve this community and I will miss the day to day contact with all my friends and neighbors, and with my colleagues. Thank you all.

Respectfully submitted,

Jane E. Ireland
Town Clerk/Tax Collector

TOWN CLERK'S REPORT
Year Ending December 31, 2007

Summary

Motor Vehicle Registrations

Permits (7360)	\$	1,110,169.34

TRUSTEES OF TRUST FUNDS REPORT 2007

The Rye Trust accounts performed in line with the general markets in 2007. The funds principal benefited from holdings in the energy, energy utilities and electric utility sectors but was hurt by investments in the financial sectors. Despite volatility in the capital markets and significant declines in the indexes from the October highs, the Trust accounts posted modest increases in principal over the course of the year.

In aggregate the Trust Funds generated \$195,155.63 in income in 2007 for their beneficiaries, primarily the Rye Cemetery and the Rye Public Library. The Rye Trustees are committed to a conservative investment policy of maintaining inflation-adjusted principal while maximizing available income for beneficiaries.

ZONING ORDINANCE AMENDMENT QUESTIONS

ARTICLE 3. ZONING ORDINANCE AMENDMENT QUESTIONS :

Amendment 1, Proposed by the Rye Planning Board

Are you in favor of the adoption of Amendment 1, as follows:

To add the following definition to Appendix A - Definitions:

DWELLING UNIT, SEASONAL: A dwelling unit not suitable for year round occupancy due to the presence of any one of the following conditions: (1) water supply and/or waste disposal pipes, pumps or other facilities susceptible to freezing; (2) no central year round heating system; (3) NH DES restriction of septic system to seasonal use. If uncertainty exists, the Building Inspector shall determine the seasonal or year-round status of a dwelling unit.

Explanation

The present zoning ordinance contains regulations relative to seasonal dwelling units, but the term "seasonal dwelling unit" is not defined.

ZONING ORDINANCE AMENDMENT QUESTIONS CONTINUED

Amendment 2. Proposed by the Rye Planning Board
Are you in favor of the adoption of Amendment 2, as follows:

To amend the zoning ordinance to provide for the conversion of existing commercial spaces to condominium ownership by conditional use permit granted by the planning board. A new Section 503-A will be added which provides requirements for the condominium conversion of commercial spaces similar to the special exception requirements of Section 503 for the conversion of existing dwelling units to condominium ownership?

556
YES ☐
NO ☐
320

Amendment 3. Proposed by the Rye Planning Board
Are you in favor of the adoption of Amendment 3, as follows:

To amend Section 503 Condominium Conversion [of existing dwelling units] to clarify the intent of the ordinance with respect to the prohibition of condominium conversion of tourist accommodations to dwelling units by adding a new Subsection 503.4 which states that tourist accommodation units are different land uses than dwelling units and have different impact on the land than dwelling units and which sets forth seven (7) findings as to why tourist accommodation units are different than dwelling units?

625
YES ☐
NO ☐
244

Amendment 4. Proposed by the Rye Planning Board
Are you in favor of the adoption of Amendment 4, as follows:

To amend Section 503 Condominium Conversions by adding the following new subsections:

503.5 Accessory Apartments. An accessory apartment approved as a special exception pursuant to Section 506 of this ordinance is required by Section 506 to be a subordinate rental unit. Thus, an approved accessory apartment may not be converted to an ownership unit under the provisions of this section.

503.6 "Grandfathered" In-Law Apartments. In 1998 the enactment of Section 506 providing for Accessory Apartments, revoked and replaced Section 202.7 of the zoning ordinance, which had allowed a property owner to make interior changes to existing buildings or to construct additions for residential use by members of the owner's family (i.e. so called "mother-in-law apartments").

The conversion to condominium ownership of any lawfully existing apartment created prior to March 10, 1998 under Section 202.7 shall include lawfully binding restrictions in the deed and in the condominium documents which permanently restrict ownership, occupancy and use of the apartment to members of the family of the owner of the principal dwelling unit located on the property.

Explanation

The proposed amendment clarifies how the condominium conversion provisions of the ordinance should be applied to accessory apartments and "grandfathered" in-law apartments.

641
YES ☐
NO ☐
218

Amendment 5. Proposed by the Rye Planning Board
Are you in favor of the adoption of Amendment 5, as follows:

To amend the zoning ordinance and official zoning map to reclassify the portions of the following parcels which are presently zoned Commercial (C) District to the Single Residence (SR) District:

Four (4) Lots on Whitehorse Drive

Tax Map 11- 15-10
Tax Map 11- 15-11

Tax Map 11- 15-12
Tax Map 11- 15-13

Note: A map showing the area proposed to be rezoned is posted with the Warrant at Town Hall and will be posted at the Rye Elementary School for the Municipal Election, March 13, 2007.

Explanation

The proposed amendment would make the zoning of the land affected more consistent with the existing development pattern. The land involved was once part of the former Ciborowski Airport tract, which years ago was zoned Commercial District. The old airport has since been subdivided and changed in use. Part of the old airport land became part of the Whitehorse Farms Residential Subdivision. These four lots are developed as residential, even though parts of them lie within the Commercial District. Thus, this amendment is a "housekeeping" measure to make the zoning of these four lots consistent with the residential use.

TOWN CLERK

**ARTICLE 4. FLOODPLAIN DEVELOPMENT AND BUILDING ORDINANCE AMENDMENT
QUESTION**

Amendment 1. Proposed by the Rye Planning Board
Are you in favor of the adoption of Amendment 1, as follows:

To see if the Town will vote to amend the Floodplain Development and Building Ordinance in accordance with the recommendation of the Rye Planning Board to include numerous changes in the text of the ordinance which are of a "housekeeping" nature, such as removing references to the old flood zones which were replaced by the Town Meeting's adoption of the new floodplain map in 2005.

Explanation

The changes are intended to keep the ordinance compatible with FEMA's requirements so that properties in the town may remain eligible for the Federal Flood Insurance Program. The ordinance, with the recommended housekeeping changes, is nine pages long. A copy of the full text of the proposed ordinance as amended is posted at the Rye Town Hall. Copies are also available from the Planning and Zoning Administrator at the Rye Town Hall. A copy will be posted at the polling place on Town Meeting day.

ARTICLE 5. Are you in favor of the adoption of Article 5, as follows: To see if the Town of Rye will vote to approve the cost items included in the Collective Bargaining Agreement reached between the Town of Rye Board of Selectmen and the Professional Fire Fighters Association of Rye affiliated with International Association of Fire Fighters Local 4411, which calls for the following increases in salaries and benefits:

Year	Increase
9 Months 2006	\$26,014
12 Months 2007	\$40,896

And further to raise and appropriate the sum of sixty-six thousand nine hundred ten dollars (\$66,910). Such sum represents the additional costs attributable to the increase in salaries and benefits over the appropriation at current staffing levels for 2007, and it also includes retroactive payment of the above stated increase for 2006. This appropriation is in addition to the operating budget. (Majority vote required.)

ZONING ORDINANCE AMENDMENT QUESTIONS

ARTICLE 3. Zoning Ordinance Amendment Questions:

Amendment 1: Proposed by the Rye Planning Board

Are you in favor of the adoption of Amendment 1, as follows:

YES ☐

NO ☐

To add an Aquifer Protection District to the zoning ordinance. The Aquifer Protection District is intended to protect groundwater resources by regulating land uses which might contaminate aquifers or reduce the recharge of aquifers. A copy of the proposed amendment establishing an Aquifer Protection District is posted at the town hall and will be posted at the polling place.

Amendment 2: Proposed by the Rye Planning Board

Are you in favor of the adoption of Amendment 2, as follows:

To amend Section 401.4 C Re: Frontage Requirement for Retirement Community Development (RCD), as follows:

- C. **Frontage:** An RCD shall have a minimum contiguous frontage on a **Class V Road or better town road or street** of 150 feet. Each dwelling within an RCD shall face upon either an existing **Class V Road or better town road or street** or on a private way constructed within the RCD.

(Note: Proposed new language in *italics and emboldened*. Deleted text is ~~struck through~~.)

YES ☐

NO ☐

Explanation

Class V Roads are town roads. Roads better than a Class V Road are state highways or state roads of Class I to IV. The effect of the amendment is to clarify that the requirement for frontage is that the frontage must be on a town road or a town street. The amendment also would allow an RCD to have frontage on a state highway or state road.

ZONING ORDINANCE AMENDMENT QUESTIONS CONTINUED

SAMPLE BALLOT

Amendment 3: Proposed by the Rye Planning Board
Are you in favor of the adoption of Amendment 3, as follows:

To amend the definition of "Garage" found in Appendix A, Definitions, as follows:

GARAGE: An accessory building, joined or attached or entirely separate from the dwelling or main building it serves, *and having a garage style door(s)*, the primary use of which is the storage or parking of not more than three motor vehicles. *If the garage is used in conjunction with a multi-unit dwelling, the number of bays shall not exceed the number of units.*

(Note: Proposed new language in *italics and emboldened*.)

Explanation

The amendment clarifies that a garage must have a garage style door. The amendment also allows garages used in conjunction with multi-unit dwellings to have a number of spaces equal to the number of units in the dwelling.

YES ☐

NO ☐

Amendment 4: Proposed by the Rye Planning Board
Are you in favor of the adoption of Amendment 4, as follows:

To amend Section 401.4 Requirements for Retirement Community Developments (RCD's) by adding the following new subsection:

- P. **Bonus for Cluster Layout:** The planning board, at its discretion, may approve an RCD of up to twenty (20) dwelling units if the proposal is for a cluster layout of streets and dwellings and if at least 50% of the parcel is preserved as common open space. Recreation and Community Facilities with impervious surfaces, any community buildings and all permanent structures will not be considered as part of the open space calculation for Cluster Layout. The area computation of the open space for the Bonus for Cluster Layout shall not include road rights of way, public or private.

The open space shall be permanently protected using a conservation easement as open space or common land for the purposes of recreation, conservation, park, trails or public easement forestry or agriculture. The Planning Board at its discretion may require that the open space or some portion be publicly accessible via easements.

The open space of an RCD shall be visible from a Town or state road wherever possible. The clustered buildings should not be seen from a town or state road or from a town street.

The planning board may enact amendments to its *Land Development Regulations* relative to the process and criteria by which the bonus may be awarded.

Explanation

The amendment would encourage developers of RCD's to provide a layout which maximizes open space preservation.

YES ☐

NO ☐

Amendment 5: Proposed by the Rye Planning Board
Are you in favor of the adoption of Amendment 5, as follows:

To amend Section 401.4 re: Requirements for Retirement Community Developments (RCD's) by adding the following new subsection:

- Q. **Recreation and Community Facilities.** An RCD may include recreation and community facilities intended for the use and enjoyment of residents and their guests, such as tennis courts, swimming pools, picnic/cookout areas and facilities; outdoor sitting areas; gardens; gazebos; and community buildings. The total surface area of community buildings within an RCD, footprint and any stories above, shall not exceed 100 sq. feet per bedroom.

Based on the scope of the facilities, additional considerations may need to be evaluated, for example, if the number of guests could be substantial, parking calculations and septic loading must be considered with the anticipated use.

YES ☐

NO ☐

Amendment 6: Proposed by the Rye Planning Board
Are you in favor of the adoption of Amendment 6, as follows:

To amend Section 303 Historic District, as requested by the Historic District Commission to prohibit "Services By" signs (i.e. advertising signs such as "Painting By", "Roofing By", etc.) in the Historic District and to make several other editing changes to the text of the district. The complete text of the Historic District as changed by the proposed amendment is posted at the town hall and will be posted at the polling place.

TOWN OF RYE, NEW HAMPSHIRE

2008
MINUTES OF THE
DELIBERATIVE SESSION

2008
BUDGET

STATUS OF THE
2007
AUDITOR'S REPORT

REPORT OF THE ANNUAL TOWN MEETING FOR THE TOWN OF RYE, NEW HAMPSHIRE

February 2, 2008 and March 11, 2008

DELIBERATIVE SESSION

At 9:05 a.m. on the 2nd day of February 2008 at the Junior High School gymnasium, Moderator Daniel Hoefle introduced himself as the outgoing, retiring, put-out-to pasture moderator and called to order the Deliberative Session of the Annual Town Meeting. He led the assembly in the Pledge of Allegiance.

Moderator Hoefle read a list of the names of our friends and neighbors who died in 2007. A moment of silence was observed in their memory.

Moderator Hoefle introduced all those seated on the stage: the Board of Selectmen, Joe Mills, Craig Musselman and Priscilla Jenness, Finance Administrator Cyndi Gillespie, Town Administrator Alan Gould, Town Counsel Michael Donovan and Town Clerk/Tax Collector Jane Ireland.

Moderator Hoefle read the list of candidates for Town and School Office for the March 11th Election.

Moderator Hoefle then stated his *rules for the meeting*. He read as follows: Even though I, as moderator, set the rules and procedures, this is your meeting and you are free to change those rules. Everyone is invited to speak. Anyone wishing to speak should come to the microphone and identify himself or herself. All comments should be directed to me, as the moderator. Moderator Hoefle said we are here in the spirit of debate and he asked that acrimony be eliminated or kept to a minimum. All amendments need to be in writing. All voters need to be checked in at the checklist table and receive a card. We will vote by a show of hands unless a secret ballot is requested. Five voters present may request a secret ballot by written request. Seven voters present may seek a recount of a voice vote or a hand vote, after the vote is taken. We will follow the articles as they appear on the Warrant unless a request is made to take them out of order. Any ruling made as moderator can be challenged by this Deliberative Session, and any motion anyone wishes to make will be entertained.

Upon determining everyone present had a copy of the Warrant, Moderator Hoefle stated we would start with Article 4.

Selectman Joe Mills asked to interrupt Moderator Hoefle and came forward to speak. Mr. Mills said the Board wanted to show appreciation to Dan Hoefle, who has been the moderator for the past ten years. Following Mr. Mills' brief remarks relating some of Dan's fine qualities as our moderator, Mr. Mills said the Board of Selectmen would like to take this opportunity to thank him for his many years and presented a wooden plaque which encased a gold gavel, and read the

inscription: *"Presented to Daniel C. Hoefle, Esq. who ably served the Town as moderator from 1998 to 2008 by the grateful citizens of the Town of Rye, February 2, 2008"*.

Following a standing ovation, Moderator Hoefle graciously said that if he has been successful at making it fair and impartial it was because most of the people up here had been with him for the past decade and really made him look good.

Moderator Hoefle read Article 4.

ARTICLE 4. To see if the Town of Rye will vote to approve the cost items included in the Collective Bargaining Agreement reached between the Town of Rye Board of Selectmen and the Rye Town Employees Association affiliated with Teamsters Local 633 of New Hampshire, which calls for the following increases in salaries and benefits at the current staffing level:

Year	Estimated Increase
2008	<u>\$10,800.70</u>
2009	<u>\$15,661.60</u>
2010	<u>\$16,447.52</u>

And further, to raise and appropriate the sum of \$10,800.70 for the 2008 fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over the appropriation at current staffing levels in the prior fiscal year. This appropriation is in addition to the operating budget. Majority vote required.

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Joe Mills, seconded by Craig Musselman, to place this article on the floor for discussion.

Selectman Musselman said this is the first of three articles dealing with new contracts. He said the first article for town employees is straight forward. The increases listed there are inflationary increases only. The inflation provision is a minimum of 2% and a maximum of 3 ½ % and with this one the 2008 cost is fixed and known; the 2009 and 2010 costs are listed at 3 ½% but might be less depending upon inflation between now and then.

Upon determining no one else wished to speak to the article, **Moderator Hoefle ordered Article 4 placed on the ballot as written.**

Moderator Hoefle read Article 5.

ARTICLE 5. Shall the Town of Rye, if Article 4 is defeated, authorize the Board of Selectmen to call one special meeting, at its option, to address Article 4 cost items only?

It was **moved** by Craig Musselman and seconded by Joe Mills, to place this article on the floor for discussion.

No discussion. **Moderator Hoefle ordered Article 5 placed on the ballot as written.**

Moderator Hoefle read Article 6.

ARTICLE 6. To see if the Town of Rye will vote to approve the cost items included in the Collective Bargaining Agreement reached between the Town of Rye Board of Selectmen and the Rye Town Police Association affiliated with Teamsters Local 633 of New Hampshire, which calls for the following increases in salaries and benefits at the current staffing level:

Year	Estimated Increase
2008	<u>\$ 19,625.81</u>
2009	<u>\$ 17,399.70</u>
2010	<u>\$ 18,900.29</u>

And further, to raise and appropriate the sum of \$ 19,625.81 for the 2008 fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over the appropriation at current staffing levels in the prior fiscal year. This appropriation is in addition to the operating budget. Majority vote required.

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Craig Musselman and seconded by Joe Mills to place this article on the floor for discussion.

Selectman Musselman explained the Police move up one grade to maintain parity with other Police Departments in the area but as they move up one grade, which is an increase of a little less than 5%, there is no C.O.L.A. for this year. In trade for that there is a variety of non cost items on the town's side that were agreed upon, one of which involves diminishing seniority as a factor in promotions and allowing performance to be a more predominant factor. In future years the increases are 2 to 3 ½ percent as described for the town employees.

Michael Mittelman asked how the salaries of our Police Department as well as our Fire Department compare with neighboring towns. Mr. Musselman responded they are competitive to a point, depending on what community you compare it to. He noted there is a difference in salaries relating to the size of communities, so you need to compare them to other towns with a population of about 5,000 around the state. Mr. Musselman stated the Board of Selectmen believes we are competitive.

Moderator Hoefle called for further discussion. Hearing none, **he ordered Article 6 placed on the ballot as written.**

Moderator Hoefle read Article 7.

ARTICLE 7. Shall the Town of Rye, if Article 6 is defeated, authorize the Board of Selectmen to call one special meeting, at its option, to address Article 6 cost items only?

It was **moved** by Craig Musselman and seconded by Joe Mills to place this article on the ballot as written.

There being no discussion, **Moderator Hoefle ordered Article 7 placed on the ballot as written.**

Moderator Hoefle read Article 8.

ARTICLE 8. To see if the Town of Rye will vote to approve the cost items included in the Collective Bargaining Agreement reached between the Town of Rye Board of Selectmen and the Professional Fire Fighters Association of Rye affiliated with International Association of Fire Fighters Local 4411, which calls for the following increases in salaries and benefits at the current staffing level:

Year	Estimated Increase
2008	<u>\$ 16,889.44</u>
2009	<u>\$ 18,239.80</u>
2010	<u>\$ 20,898.30</u>

And further, to raise and appropriate the sum of \$16,889.44 for the 2008 fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over the appropriation at current staffing levels in the prior fiscal year. This appropriation is in addition to the operating budget. Majority vote required.

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Selectman Musselman and seconded by Selectman Mills, to place Article 8 on the floor for discussion.

Mr. Musselman said this article has the same issues as the Police Department. There is a one grade increase and a C.O.L.A. doesn't apply for this year.

Moderator Hoefle called for further discussion on the article. **Hearing none, he ordered Article 8 placed on the ballot as written.**

Moderator Hoefle read Article 9.

ARTICLE 9. Shall the Town of Rye, if Article 8 is defeated, authorize the Board of Selectmen to call one special meeting, at its option, to address Article 8 cost items only?

It was **moved** by Mr. Musselman, seconded by Mr. Mills, to place Article 9 on the floor for discussion.

No discussion. **Moderator Hoefle ordered Article 9 placed on the ballot as written.**

The moderator read Article 10.

ARTICLE 10. To see if the Town will vote to raise and appropriate the sum of one hundred seventy-five thousand dollars (\$175,000) to purchase a new rescue ambulance for the Fire Department to replace the existing 1999 ambulance and to authorize the withdrawal of ninety-five thousand dollars (\$95,000) from Special Revenue Fund 14, *The New Ambulance*

Vehicle Fund created in 2005 for this purpose and to authorize the withdrawal of fifty eight thousand dollars (\$58,000) from the *Ambulance Capital Reserve Fund* created in 1996 for this purpose. The balance of twenty-two thousand dollars (\$22,000) is to come from general taxation. This appropriation is in addition to the operating budget. (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Priscilla Jenness and seconded by Joe Mills, to place Article 10 on the ballot for discussion.

Mrs. Jenness stated the way this will be paid for is laid out in the article. The ambulance vehicle fund is the cell tower revenue. The \$22,000 would be within the tax rate which results in two cents on the tax rate.

There was no further discussion. **Moderator Hoefle ordered Article 10 placed on the ballot as written.**

Moderator Hoefle read Article 11.

ARTICLE 11. To see if the Town will vote to raise and appropriate the sum of one hundred twenty-five thousand eighty dollars (\$125,080) to purchase a new, heavy six-wheel plow/wing/sander truck for the Department of Public Works to replace a 1996 International dump truck and to authorize the withdrawal of eighty thousand dollars (\$80,000) from the Capital Reserve Fund created in 1994 for that purpose. The balance of forty-five thousand eighty dollars (\$45,080) is to come from general taxation. This appropriation is in addition to the operating budget. (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Joe Mills, seconded by Craig Musselman to place Article 11 on the ballot as written.

Mr. Mills said this is basically just upgrading of the equipment.

Moderator Hoefle called for further discussion on the article. Hearing none, **he ordered Article 11 placed on the ballot as written.**

Moderator Hoefle read Article 12.

ARTICLE 12. To see if the Town will vote to raise and appropriate the sum of sixty-seven thousand dollars (\$67,000) to be added to the New Fire Truck Capital Reserve Fund established in 1965. This appropriation is in addition to the operating budget. (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Craig Musselman and seconded by Joe Mills, to place Article 12 on the floor for discussion.

Mr. Musselman stated this article puts aside \$67,000 toward the purchase of a future fire vehicle. The \$67,000 is the same amount we were paying annually on a loan for the last fire truck we acquired. That loan is paid off and we propose to keep that funding level.

There was no further discussion. **Moderator Hoefle ordered Article 12 placed on the ballot as written.**

Moderator Hoefle read Article 13.

ARTICLE 13. To see if the Town will vote to raise and appropriate the sum of fifty thousand dollars (\$50,000) for the purpose of installing and purchasing equipment for a new playground at the Rye Recreation Area, of which thirty-five thousand dollars (\$35,000) will come from withdrawal of funds in the Recreation Commission *Youth Recreational Athletics Account*, which receives monies from fundraising and private donations. The balance of fifteen thousand dollars (\$15,000) is to come from general taxation. This appropriation is in addition to the operating budget. (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Selectwoman Jenness and seconded by Selectman Mills, to place Article 13 on the ballot as written.

Mrs. Jenness explained originally this was put forth as a capital expenditure request but it was the decision of the Board of Selectmen to put it in as a warrant article in order to give the voters a voice in accepting it. If this is approved the additional \$15,000 on the tax rate would result in 1.3 cents.

No further discussion. **Moderator Hoefle ordered Article 13 placed on the ballot as written.**

Moderator Hoefle read Article 14.

ARTICLE 14. To see if the Town will vote to raise and appropriate the sum of twenty-five thousand dollars (\$25,000) to be added to the Capital Reserve Fund established pursuant to RSA 35:1, by Article 11 of the 2005 Rye Town Meeting, for the purpose of site geo-technical investigation, site permitting, design fees and construction of a salt/sand storage building adjacent to the existing Public Works Facility. This appropriation is in addition to the operating budget. (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS NOT RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Craig Musselman, and seconded by Joe Mills, to place Article 14 on the floor for discussion.

Mr. Musselman stated the town has been storing road salt at the public works complex for many years in a fashion that results in salt being introduced into the groundwater and it is in an area of our primary water supplies here in Rye. The town has recognized for awhile that that is inappropriate and an appropriate sand/salt storage shed with provisions for loading and storage of salt inside is necessary. For the last three years the town has been setting aside \$25,000 per year toward the capital costs of that. We now have \$79,000 and change in that account. This article proposes an additional \$25,000. The Budget Committee did not recommend this article and there was some discussion there about whether there are alternatives to salt and there was other discussion that this accumulation of funds is different than it is for an ambulance or a fire truck where we have situations where we know we don't need it yet, but we will. In this case we pretty much know we need a facility and discussion also centered on whether or not we should, instead of letting the cost of the facility inflate, whether we ought to go build it with accumulated funds plus either appropriated or borrowed funds in the future. Our hope is the town will continue to appropriate at this rate toward the capital cost of a salt shed which is somewhere in the \$150,000 to \$200,000 range, not pinned down yet. We will gather more information and come back with a plan for next year, probably to do this on a capital basis and build it so that inflation doesn't keep raising it up.

Paul Goldman, Budget Committee Chairman, said he appreciated Craig's comments because he has now provided some new information. Mr. Goldman stated that from an over all objective stand point, the Budget Committee is very much in favor of ensuring that we have safe roads, clear roads, and an appropriate facility. It is not a question of whether we all have the same objective. At the time, the question was about whether there were alternative ways of financing it, like through a bond or something like that. Mr. Goldman further stated that he wanted to clarify the committee made their recommendation based on what they knew at the time.

There was no further discussion. **Moderator Hoefle ordered Article 14 placed on the ballot as written.**

***** Following the adjournment of this Deliberative Session, members of the Budget Committee met and voted to Recommend Article 14. *****

The moderator read Article 15.

ARTICLE 15. To see if the Town will vote to raise and appropriate the sum of twenty thousand dollars (\$20,000) to be added to the expendable general fund trust fund known as The Town Employees Accumulated Leave Fund, previously created pursuant to RSA 31:19-a by Article 14 of the 1990 Rye Town Meeting. The Town Employees Accumulated Leave Fund pays severance benefits to town employees in accordance with the Town's Personnel Policy. This appropriation is in addition to the operating budget. (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Joe Mills, and seconded by Craig Musselman, to place Article 15 on the floor for discussion.

Mr. Mills said this article is just keeping up with the times in order to pay severance packages when employees leave. We try to keep pace each year with a projection of people who may retire.

There was no further discussion. **Moderator Hoefle ordered Article 15 placed on the ballot as written.**

Moderator Hoefle read Article 16.

ARTICLE 16. To see if the Town will vote to raise and appropriate the sum of ten thousand dollars (\$10,000) to be added to the Capital Reserve Fund known as the Ambulance Fund established in 1996. This appropriation is in addition to the operating budget (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS NOT RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Priscilla Jenness, and seconded by Joe Mills, to place Article 16 on the floor for discussion.

Mrs. Jenness stated the ambulance is in its ninth year. That is the approximate time for the turnover of an ambulance for us. We will have depleted the capital reserve fund. We will still be in the contract with the cell tower, with revenue of approximately \$22,000 a year. If we purchase a new ambulance in eight years that figure would be \$176,000, which is approximately what we'll be paying now. Eight years from now a new ambulance won't cost what it will this year. With that in mind, we wanted to place some back into the Capital Reserve fund.

Paul Goldman, Budget Committee Chairman, said he understood the rationale that's been given. He explained that at the time the committee made its decision not to recommend the article, that not knowing how much the cell tower revenue would be, what length of time cell tower contracts would be in place, whether that revenue would increase in the future, etc. this was the conclusion.

There was no further discussion. **Moderator Hoefle ordered Article 16 placed on the ballot as written.**

The moderator read Article 17.

ARTICLE 17. To see if the Town will vote to appoint the selectmen as agents to expend from the Capital Reserve Fund known as the Ambulance Fund established in 1996. (Majority vote required.)

It was **moved** by Craig Musselman, and seconded by Joe Mills, to place Article 17 on the floor for discussion.

Selectman Mills said the Selectmen need permission to remove from the Ambulance Fund the money to purchase the new ambulance, so are seeking permission to remove the money.

There was no further discussion. **Moderator Hoefle ordered Article 17 placed on the ballot as written.**

Moderator Hoefle read Article 18.

ARTICLE 18. To see if the Town will vote to raise and appropriate the sum of ten thousand dollars (\$10,000) to be added to the expendable trust fund known as The Municipal Buildings Maintenance Fund established in 2007 under the provisions of RSA 31:19-a, for the purpose of creating a major repairs fund for municipal buildings. This appropriation is in addition to the operating budget. (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Joe Mills, seconded by Priscilla Jenness, to Place Article 18 on the floor for discussion.

Mr. Mills stated this is just maintenance on the town buildings to keep abreast of normal repairs on town buildings.

There being no further discussion, **Moderator Hoefle ordered Article 18 placed on the ballot as written.**

Moderator Hoefle read Article 19.

ARTICLE 19. To see if the Town will vote to raise and appropriate the sum of ten thousand dollars (\$10,000) to be added to the Expendable Trust Fund established by Article 14 at the 2005 Town Meeting under the provisions of RSA 31:19-a, as a maintenance fund for the Rye Public Library building. This appropriation is in addition to the operating budget. (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS NOT RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Joe Mills, and seconded by Craig Musselman, to place Article 19 on the floor for discussion.

Victor Azzi, Chairman of the Library Trustees said this was to set aside some money in the event that some unforeseen event that would require an expenditure of money that we wouldn't have in the normal operating budget. We felt we should accumulate funds at the rate of \$5,000 a year in order to be prepared for an unforeseen large expenditure. We were looking for a target of about \$40,000. Within the past year we had drainage issues that caused some water to leak into the

building and we spent some of those monies to improve the drainage to remove some carpeting and to remediate the area that had become wet. We decided to replenish that and so proposed the \$10,000. Mr. Azzi said the trustees would be willing to accept \$5,000 this year. He explained the library does not have access to funds such as those set aside in Article 18.

Paul Goldman, Budget Committee Chairman, asked if Mr. Azzi had proposed an amendment to change this to \$5,000. Moderator Hoefle responded that he did not understand it to be that he was making an amendment.

Mr. Goldman sought to clarify the discussion and expectations that were said between the Library Trustees and the Budget Committee. Through the budgeting process, he said, there was give and take and it was the Budget Committee's understanding that there was going to be an amendment to make this \$5,000 based on all the good faith discussion with the Library Trustees. The history is that the Library has operated very effectively at the rate they have been putting into the reserves, which is \$5,000 a year. They had some extenuating circumstances this year with regard to foundation leakage problems, mold problems and in addition to that challenged with regard to securing that the operating budget stays on target. Mr. Goldman said he felt they had a good faith understanding with regard to what was going to happen with this particular warrant article.

Shawn Crapo, Budget Committee member, said after the expenditure from the capital reserve fund, there was approximately a \$5,000 balance. He said it was agreed that \$10,000 was the appropriate funding for this account, so that adding \$5,000 would keep that fund at the \$10,000 level rather than having \$15,000 set aside.

Victor Azzi responded explaining his oversight and by **moving to amend the article to \$5,000**. Bob Eaton seconded his motion to amend Article 19.

Moderator Hoefle restated Article 19 with the proposed amendment, and called for discussion on the amendment.

Michael Mittelman asked with respect to the damage to the library building, didn't insurance cover some or all of it?

Victor Azzi replied that he didn't believe they had insurance for this.

Town Administrator Alan Gould clarified that the town has insurance for the town's buildings but that he was unaware of a claim.

Mr. Mills recalled that there was a problem at the town hall when a hot water heater let go, and the town put in a claim to the insurance company and they replaced all the carpeting on the first floor.

Ray Jarvis wanted to know why we are setting aside money to fix things if we have insurance.

Mr. Azzi said if the town has insurance that covers the library building, then that is something the Library Trustees need to know, and look into. He said he did not have an answer.

Selectman Mills corrected Mr. Azzi's previous assertion to clarify that the town's article was for *maintenance* where the Library's was *damage*.

Betty Anderson said as a member of the School Board, that they set aside money to cover certain issues not covered by insurance. Ms. Anderson said she also sits on the Budget Committee and was the lone vote in favor of the \$10,000.

Frank Drake, Budget Committee member, said there was a general sense on the Budget Committee that \$10,000 set aside in a contingency fund to cover a short term emergency was about right. He said they ought to have some long range plans when they're talking about roofs and boilers and things like that. Mr. Drake said it was represented that they would come forward and immediately amend it to \$5,000 and we would go forward.

Moderator Hoefle re-stated the amendment and called for any further discussion on it. Hearing none, he called for a vote on the amendment to reduce the amount in Article 19 from \$10,000 to \$5,000. Show of Hands. Amendment carries.

Moderator Hoefle called for further discussion on Article 19, as amended. Hearing none, he ordered Article 19 placed on the ballot as amended.

**** Following the adjournment of this Deliberative Session, members of the Budget Committee met and voted to Recommend Article 19, as amended. ****

Moderator Hoefle read Article 20.

ARTICLE 20. To see if the Town will vote to discontinue the Fire/Police Station Land Acquisition Capital Reserve Fund created in 2002. The reason for discontinuing the fund is that the land purchase has been completed. Said funds, with accumulated interest to date of withdrawal, are to be transferred to the Town's general fund. (Majority vote required.)

It was **moved** by Joe Mills, seconded by Priscilla Jenness, to place Article 20 on the floor for discussion.

Mr. Mills explained this is doing away with a fund that is no longer needed. He said the balance right now is \$4,900 and that would be put into the General Fund which eventually would be used to reduce your tax rate.

There was no further discussion. **Moderator Hoefle ordered Article 20 placed on the ballot as written.**

The moderator read Article 21.

ARTICLE 21. To see if the Town will vote to discontinue the Capital Reserve Fund created in 1990 for the purpose of future revaluation. Said funds, with accumulated interest to date of withdrawal, are to be transferred to the Town's general fund. (Majority vote required.)

It was **moved** by Joe Mills, seconded by Priscilla Jenness, to place Article 21 on the floor for discussion.

Mr. Mills explained the town would probably never have to do another revaluation as long as we stay up with the programs provided by Vision and the State of NH which automatically reevaluates. The balance in this fund is \$5498 and that would go into the General Fund.

There was no further discussion. **Moderator Hoefle ordered Article 21 placed on the ballot as written.**

Moderator Hoefle read Article 22.

ARTICLE 22. (By petition) To see if the Town will vote to raise and appropriate fifteen hundred dollars (\$1,500) to help support Rye Senior SERVE, a local non-profit organized to respond to the needs of Rye seniors. Incorporated in 2004, Rye Senior SERVE, Inc. is dedicated to identifying and responding to the needs of our senior residents. To that end, the focus and efforts are in three different areas identified as being important to our seniors: transportation, communication and living independently in their homes. This appropriation is in addition to the operating budget. (Majority vote required.)

THIS ARTICLE IS RECOMMENDED BY THE SELECTMEN
THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE

It was **moved** by Joe Mills and seconded by Craig Musselman, to place Article 22 on the floor for discussion.

Margaret Carroll explained that SERVE stood for "supporting elderly residents through volunteer efforts". She said her organization has learned that most elderly in town want to stay in their homes as long as they can, but they know they'll need help, and it is that help that they are trying to work on now.

Following her comments, the moderator ascertained no one else wished to speak. **Moderator Hoefle ordered Article 22 placed on the ballot as written.**

The moderator read Article 23.

ARTICLE 23. Shall the Town raise and appropriate as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amounts set forth on the budget posted with the warrant or as amended by vote of the first session, for the purposes set forth therein totaling seven million six hundred eighty-six thousand six hundred fifteen dollars (\$7,686,615)? Should this article be defeated, the operating budget shall be seven million four hundred thousand thirty-five dollars (\$7,400,035) which is the same as last year with certain adjustments required by previous action of the Town or by law or the governing body

may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only. (Majority vote required.)

NOTE: This warrant article does not include appropriations in ANY other warrant article.

It was **moved** by Joe Mills, seconded by Priscilla Jenness, to place Article 23 on the floor for discussion.

Mr. Mills said this is what we need to properly operate the town this year.

Paul Goldman, Budget Committee Chairman, said that although it doesn't state it explicitly here, he wanted everyone to know the Budget Committee does recommend this budget.

Bob Eaton, member of the Budget Committee, said the town department heads, the Board of Selectmen and the Budget Committee spend many days and many hours of hard work to come up with this budget and we think it is a good budget. Because of that, the Budget Committee voted unanimously to add our recommendation to the operating budget just as it appears with all the other warrant articles. Mr. Eaton said there was a similar topic of discussion with regard to the school budget and for the last four or five years both the Budget Committee's and the School Board's recommendations have appeared on the ballot. He said he realized the Department of Revenue Administration doesn't necessarily recommend that the Budget Committee's recommendation appear because they feel it is redundant because it is *our* budget. We want to make it unequivocally clear that we stand behind the budget.

Mr. Mills inquired of Town Counsel Michael Donovan if it would be proper to amend the article to include the recommendation. Atty. Donovan responded that he believed it would be, but that given the position that DRA has taken he would advise leaving the article alone. Atty. Donovan added that DRA probably does not prohibit it either.

Moderator Hoefle stated the recommendation from Town Counsel is to table this issue for the time being and move on to the next article to give Atty. Donovan some time to do some research on this question.

Paul Goldman said, speaking for himself, he feels they have a really good process working with the Town Administrator, the Board of Selectmen and all the department and commission heads with trying to get the most out of addressing the needs of the town.

Betty Anderson confirmed the School Department attorney has researched this and it is legal.

Paula Merritt wanted to know if the Budget Committee can change their recommendations. Mr. Mills responded that following this meeting the Budget Committee members can have a work session and vote to change their recommendation, which is the way it would then appear on the official ballot.

Jane Ireland made a **motion to Table** Article 23 in order to allow Atty. Donovan the opportunity to research this question. Mr. Mills seconded the motion to Table.

Moderator Hoefle explained the motion to table is non-debatable.

He called for a vote on the motion to Table Article 23. Show of Hands. Motion carries.

Moderator Hoefle stated this Article is Tabled and we will come back to it.

Moderator Hoefle read Article 24.

ARTICLE 24. (By Petition) To see if the Town will vote to improve the appearance of the Recycling Center/Transfer Station on Grove Road by restoring the green buffer zone that has eroded which surrounded the facility. It will reduce the noise, fumes, debris and standing water from further diminishing the quality of life and health to nearby neighbors. It will also reduce the visibility of trucks, dumpsters and makeshift buildings. The facility serves the largest population of any town facility, and deserves to be properly funded for its restoration and maintenance. Proper upkeep will reflect the town's pride in its neat appearance. In addition, the existing fence should be replaced or repaired, and surround the entire facility. The barrel holding the stop sign should be replaced with something more attractive and the plow should be removed. The plow is sitting on an old historic graveyard.

It was **moved** by Jane Ireland and seconded by Joe Mills, to place Article 24 on the floor for discussion.

Del Record said he was not one of the petitioners.

In response to a query from Frank Drake, Mr. Mills stated that the town has been trying to improve that area. He said if this gets voted down that would tie our hands and we could not make any improvements.

Craig Musselman offered a little bit of background. He said the Selectmen have been attempting to improve the appearance of the recycling facility for a number of years. There was a citizens committee appointed that worked up a plan to improve the front appearance. A landscape architect was retained to bring that concept to a point where we could get a cost estimate for it. The cost was about \$45,000. At that time it was decided not to bring that to a warrant article with the concern that it wouldn't fly due to the financial impact. So the town has been proceeding to improve the appearance using donated fencing and trees. Mr. Musselman said we backed the composting area away from the road and we propose to continue to take steps like that within the town budget, and there is not much in the town budget for recycling facility improvements. There is a plan to continue the wood fence along the front and to work a little bit with the berm in the composting area. The residents want it improved more and quicker and they've made that known to the Selectmen. This petition article has a couple of significant challenges, one being it has no money attached to it. If this article were to be passed, we couldn't do it because we don't have an appropriation.

Mr. Musselman **moved to amend Article 24, "To see if the town would vote to improve the appearance of the Recycling Center/Transfer Station on Grove Road."** and to delete the rest. His motion to amend was seconded by Joe Mills.

Ray Jarvis suggested adding the words “study ways to improve”.

Bob Brown questioned the advisability of amending a petition article, to which Attorney Donovan responded that you can amend this in any way but you cannot NOT put something about this subject matter on the ballot .

Del Record inquired if any of the petitioners were present. In response to his comments, Moderator Hoefle explained we cannot remove the article from the warrant. We can amend the article and there is an amendment on the floor. He stated those are our limitations within the SB2 framework. The moderator restated the amendment.

Mr. Record **moved to amend the amendment** by adding the word “continue”, so the amendment would read “To see if the Town will vote to continue to improve the appearance of the Recycling Center/Transfer Station on Grove Road.”.

Frank Drake seconded the motion to amend the amendment.

There was discussion about whether the word “vote” should be removed from the article and it was agreed it should not.

No further discussion. Moderator called for a **vote on the amendment. Show of Hands. Amendment carries. Moderator Hoefle ordered Article 24 placed on the ballot as amended.**

Moderator Hoefle asked Town Counsel Michael Donovan to give his opinion with regard to the question of recommendations on Article 23.

Atty. Donovan stated there is nothing in the statutes that prohibits the article on the budget from containing the recommendations of the Budget Committee and the Board of Selectmen. The specific requirement is that the special warrant articles have to have that, and that is what we have always done here. He said his opinion was that if you want to amend the budget article to put the Budget Committee’s and the Selectmen’s recommendation on there, you can do so.

Bob Eaton **moved to remove Article 23 from the table**, seconded by Betty Anderson. **Show of Hands. Motion to take Article 23 off the table is successful.**

Mr. Eaton presented an **amendment** to Moderator Hoefle adding the notation “The Budget Committee Recommends This Warrant Article”. Moderator Hoefle inquired if Mr. Eaton was satisfied with that or did he wish to add the Selectmen’s Recommendation. Mr. Eaton ascertained the Board of Selectmen were in agreement and moved to **amend his amendment** by adding the further notation “This Article is Recommended by the Selectmen”, in either order as the Selectmen prefer. Mr. Mills seconded Mr. Eaton’s amendment. Mr. Eaton then stated he wanted to withdraw his amendment to correct the wording so it would be consistent with the wording as it appears on all the other warrant articles, to say “THIS ARTICLE IS

RECOMMENDED BY THE SELECTMEN THIS ARTICLE IS RECOMMENDED BY THE BUDGET COMMITTEE". Mr. Mills affirmed his acceptance of this change.

Moderator Hoefle ascertained there was no further discussion on the amendment. He called for a vote. **SHOW OF HANDS. Amendment carries.**

Moderator Hoefle ordered Article 23 placed on the ballot as amended.

Moderator Hoefle read Article 25.

ARTICLE 25. To see if the Town will vote to authorize the Selectmen to sell to the highest bidder at public auction, or sealed bid, such surplus Town equipment as is not traded in on new equipment in 2008.

It was **moved** by Joe Mills and seconded by Priscilla Jenness to place Article 25 on the floor for discussion.

Selectmen Mills said this is just authorizing us to have a town auction. He said we haven't had one for two or three years. It's basically lost and found items and surplus equipment.

No further discussion. **Moderator Hoefle ordered Article 25 placed on the ballot as written.**

Moderator Hoefle read Article 26.

ARTICLE 26. To transact any other business which may legally come before this meeting.

It was **moved** by Joe Mills, and seconded by Craig Musselman, to place Article 26 on the floor for discussion.

Paul Goldman asked members of the Budget Committee to stay for a few minutes in order to meet.

Ray Jarvis inquired if any of the candidates for town office would be interested in having a Candidates' Night.

Michael Schwartz **moved to adjourn** the Deliberative Session, seconded by Del Record. *Motion to adjourn carries.*

Meeting adjourned at 10:35 a.m.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Jane E. Ireland", written over a horizontal line.

BUDGET OF THE TOWN WITH A MUNICIPAL BUDGET COMMITTEE

OF: TOWN OF RYE

BUDGET FORM FOR TOWNS WHICH HAVE ADOPTED
THE PROVISIONS OF RSA 32:14 THROUGH 32:24

Appropriations and Estimates of Revenue for the Ensuing Year January 1, 2008 to December 31, 2008

or Fiscal Year From _____ to _____

IMPORTANT:

Please read RSA 32:5 applicable to all municipalities.

1. Use this form to list the entire budget in the appropriate recommended and not recommended area. This means the operating budget and all special and individual warrant articles must be posted.
2. Hold at least one public hearing on this budget.
3. When completed, a copy of the budget must be posted with the warrant. Another copy must be placed on file with the town clerk, and a copy sent to the Department of Revenue Administration at the address below.

This is to certify that this budget was posted with the warrant on the (date) _____

BUDGET COMMITTEE

Please sign in ink.

Paul Goodman
Frank A. Doh
Raymond J. Jarvis
James E. Mahan
Robert A. Katz

Betty J. Sullivan
Shirley C. Cragg

THIS BUDGET SHALL BE POSTED WITH THE TOWN WARRANT

FOR DRA USE ONLY

If you have a line item of appropriations from more than one warrant article, please use the space below to identify the make-up of the line total for the ensuing year.

[illegible]

"SPECIAL WARRANT ARTICLES"

Special warrant articles are defined in RSA 32:3.VI, as appropriations: 1) in petitioned warrant articles; 2) appropriations raised by bonds or notes; 3) appropriations to a separate fund created pursuant to law, such as capital reserve funds or trusts funds; or 4) an appropriation designated on the warrant as a special article or as a nonlapsing or nontransferable article.

STATUS OF THE AUDIT FOR THE YEAR ENDING
DECEMBER 31, 2007

February 15, 2008

To: Rye taxpayers
From: The Board of Selectmen
Subject: Status of Audit

Following this memo, you will find a copy of a letter dated August 2007 sent by Plodzik & Sanderson, our auditing firm, to its clients.

For the past several years, we have received most, if not all, of the annual Town audit in time for inclusion in the Annual Report. Towns have grown; auditing requirements have become more complex and standards more stringent over time. In short, until every "i" is dotted and "t" is crossed by Plodzik & Sanderson, the Town will not receive the Auditor's Report and the deadline for Annual Report text to the printer is today.

The auditors began their work the end of January and spent a week at Town Hall. On February 4, 2008, they provided a balance sheet following a preliminary review of Town funds. This balance sheet is also included here.

The Auditor's Report will be available as soon as it is received at Town Hall.

August 2007

Dear Members of the Board and Management:

In light of our efforts to keep you informed of changes in auditing and accounting standards in a most timely manner, we are taking this opportunity to let you know that we will not be able to promise that you can have your audit report in time for printing deadlines to be included in the annual Town Report beginning in 2008. The reason is because of another Statement on Auditing Standards, which says that among other things, the audit report must not be dated until all pieces of the financial statements are completed. These would include the completion and our review of the management's discussion and analysis; the single audits and all compliance testing, where applicable; the completion and review of all workpapers; the receipt and review of all attorney's letters, bank confirmations and your certification of responsibility and review of the financial statements. We do not see how this can all be done prior to the Town Meeting deadline in most instances.

For many of you, this will not be a major change, but there are some of you that have been given the audit opinion to print in the Town Report when the audit has been completed, but the financial statements have not been all written up or reviewed. This will no longer be possible.

Another issue involves the confirmations and various letters that we require to complete the audit. We began last year asking that you return all bank confirmations to us for mailing to the banks. This is still not being done by some of our clients. In order to control the confirmations and know which ones we are missing, we must mail them to the banks from our office. We also must have them for all bank accounts, (treasurer's, library's, trustees', student activities funds, etc.) As far as attorneys' and management representation letters, these must carry through and be dated when the audit is substantially complete. We have stopped sending you information to request attorney's letters as part of the preliminary packets; and we will be giving these at the conclusion of fieldwork, or in many cases, at some later date. If the letters are done too early, you will have to get an addendum to cover the subsequent period which could be more costly if the attorneys bill for each response.

As always, thank you for your understanding and attention to these matters, and should you have any questions, please do not hesitate to contact us.

Sincerely yours,

Plodzik & Sanderson

ASSESSOR'S REPORT

Assessor – Howard Promer, CNHA

Clerk – Heather Austin

Field Appraisers: Todd Haywood, CNHA, Granite Hill Municipal Services
Virginia Merrill, Granite Hill Municipal Services

Our department had a successful upgrade completed this year for our Vision Appraisal Technology version 6 program used for data processing of all assessing functions. This enhancement features both new and expanded programs for processing assessment data, generating statistical analyses and comprehensive reports for many facets of estimating valuation. As is typical whenever change occurs, the new does not always replicate the old. Specifically, in about two percent of properties where no physical alterations had taken place, there were instances of minor valuation differences in approximately 66 parcels out of a total of 3,094 properties in town.

Field appraisers Todd Haywood and his assistant Virginia Merrill have now completed the fourth year of the four-year cycle in which every building in town is re-measured and re-inspected. The results of the program have illustrated how beneficial it is for the property owner to allow the interior inspection. Much of the data in the assessing system has been corrected and updated to the advantage of the taxpayer. If an interior inspection has not been completed by the end of this four-year cycle then the file may be still outdated or inaccurate. When entry was not gained, the data collector may have estimated various interior features including total room count, number of bedrooms and bathrooms, type of heating system, building age and quality, among other factors. If the data collector guessed wrong, those errors could distort the valuation. Listing can be checked at the web address stated below. If an owner finds errors, please call 964-5523 to arrange an inspection appointment.

The values and property information are available to you online. It is updated four times a year. Please visit <http://data.visionappraisal.com/ryenh/> or call the office at 964-5523 if we can help you. By the same token, the staff expresses its gratitude for the cooperation and assistance we receive from the town's residents and visitors.

Respectfully submitted by
Howard Promer, CNHA- Assessor
Heather Austin, Assessing Clerk

A glimpse into our past: *History of Rye, N.H. 1623-1903*, L. B. Parsons, 1905

In a chapter of Mr. Parsons book titled SOME STORIES, the following paragraph appears: "An act for the Selectmen of each town & Parish District of this Province to bring in a list of the Poles and Inventory of the Estates belonging to their Respective towns & Districts – Negro, Indian & Milatoe Slaves at 20 pounds each, Women Slaves excluded, and the Value of Ye Trades. Ryes part be ten Pounds & New Castle Island 15 pounds, to make New Castle 25 pounds. Poles be valued at 25 pounds each, all tillage, meadow & marsh land six Shillings pr acre."

No date for the above is provided; but, given the history of our town, it appears that this valuation process must have occurred between 1693, when Newcastle was incorporated, and 1726, when the Parish of Rye was incorporated.

BEACH COMMISSION'S REPORT

The Beach Commissioners and their excellent crew of life guards were kept hopping this past summer as Mother Nature dished out week after week of gorgeous beach weather accompanied by ocean breezes and fine surf conditions. The life guard contingent was headed up for the first time by Jared Pease who did a commendable job. Jared has been with the town for a few seasons as a guard but agreed this summer to oversee our five guard posts: one on Sawyer's Beach, two on Jenness Beach and two on Wallis Road Extension Beach.

Many Rye residents along with an increasing number of visitors and their pets came to take advantage of our shores. The biggest issues facing the Commission include maintaining safe staff levels as well as refining and implementing policy relative to surfing and beach use by dog owners. In 2006, a new flag system was introduced as a means of safely segregating surfers and swimmers. In 2007, increased pressure by surf related activity required us to look at ways to improve this system. Better communication and possible increased staffing on busy days were discussed. A steady increase in dog visits to the beach continues to spur debate including calls for leashes as well as outright bans. The primary concerns remain lack of control by some owners of their pets as well as disregard for rules requiring cleanup and removal of pet waste. In 2008, look for revamped and increased signage explaining both surf and dog rules in an effort to increase compliance.

Our aim is to maintain a safe and clean beach experience. Your input is welcome. Please direct Beach Commission inquiries or comments to the Selectmen's office at 964-5523

The Beach Commissioners: Michael Labrie, Jack Panopoulos, Tim Sanborn

Mark Whitaker catches a wave at Jenness Beach

BOARD OF ADJUSTMENT'S ANNUAL REPORT

The Board of Adjustment consists of five members who are appointed by the Selectmen for a three-year term. The appointments are staggered in order to insure the continuity of the Board. The qualifications to serve on the Board are the same for those of any other position of trust in a municipality: time, an interest in serving, impartiality, and a willingness to understand the process. The current members are: Frank Drake, Chairman; Benjamin King, Vice-Chairman; Jay Nadeau, Clerk; Raymond Jarvis and Shawn Crapo. The alternates are Paul Goldman, Patty Weathersby and Betty Menson.

We are happy and lucky to have Ms. Weathersby back with us after her temporary move out west.

The power and duties of the Board of Adjustment are prescribed by NH State Law and delineated in the Rye Zoning Ordinance. The Board has the authority to act in four separate and distinct categories: Appeals from Administrative Decisions; Special Exceptions; Variances; and Equitable Waivers of Dimensional Requirements.

Appeals: To hear appeals from administrative decisions where it is alleged that the Zoning Officer has incorrectly applied the terms of the Ordinance

Special Exceptions: To decide special exceptions to the Ordinance which are specially delineated in the Ordinance. The granting of a special exception is a matter of right, not a privilege, provided that: the request is not injurious or detrimental to the neighborhood; it is in harmony with the general purpose and intent of the Ordinance; and meets all of the rules and requirements for that exception.

Variances: To grant or deny requests for Variances to the terms of the Zoning Ordinance. There are two distinct types of variances: use variances and area (or dimensional) variances. To be granted a variance must meet all of the following requirements:

1. The variance is consistent with the spirit of the ordinance.
2. Substantial justice will be done.
3. The value of surrounding properties will not be diminished.
4. The variance is not contrary to the public interest.
5. Special conditions of the property exist such that literal enforcement of the ordinance results in unnecessary hardship.

Equitable Waivers of Dimensional Requirements: The Board may grant an equitable waiver only for existing dimensional non-conformities provided the applicant can meet the required standards as listed in the Zoning Ordinance.

The Board heard 36 Applications this year. Not all applications were formally voted on. Some applicants voluntarily withdrew their applications. Many of the approved applications were the result of the applicants and their architects working diligently to develop reasonable plans reflecting an awareness of the purpose and spirit of the Ordinance and the context of their property within the character of their neighborhood. Several of the granted variances involve making accommodations for septic system improvements on small, previously developed lots.

	Granted	Denied	Withdrawn
Variances:	23	2	1
Special Exceptions:	3	0	1
Appeal from Adm. Decision:	1	0	2
Condo conversions:	0	0	0
Equitable Waiver:	0	0	0
Apartments:	2	0	1

The Board of Adjustment had a 2006 budget appropriation of \$11,700 and revenues of \$5,271.

The members and alternates are to be commended for their consistent participation, attendance and attention to the details of the many petitions presented each year.

Respectfully submitted,

Frank Drake, Chairman

BUDGET COMMITTEE'S REPORT

Composition of the Rye Budget Committee includes Elected Members and District Representatives. Current Elected Members are Jim Maheras (Vice Chairman), Bob Eaton (Clerk), Ray Jarvis, Doug Abrams, Shawn Crapo, and Paul Goldman (Chairman). The District Representatives include Frank Drake (Rye Beach), Randy Crapo (Jenness Beach), John Murtagh and Ralph Hickson alternately representing the Rye Water District, and Betty Anderson (Rye School Board). Craig Musselman is the Selectmen's Representative to the Budget Committee.

The budgeting processes for both the Rye Town Budget and the Rye School District have just been completed. For both budgets, bottoms-up, zero-based budgeting is the methodology utilized. This is very detail-oriented and involves reviewing and understanding the justification for each line item for both budgets with appropriate Town Department and Commission Heads, the Board of Selectmen, the Town Administrator, the Rye School Board, and the School Administrative Offices. As stated in last year's Budget Committee Report, the Budget Committee believes that this approach continues to be a vital part of overall due diligence and provides the best possible budgeting outcome for the Town.

Key Process Improvement is a continual focus for the Budget Committee. The Budget Committee continued to build on last year's improvements in the key areas of early identification of budgeting issues, early-as-possible issue resolution, early collection of financial information, improved quality of financial information, and better communications and working relationships between the Budget Committee and all related parties involved in Town and School budgeting. As a result, specifically for the Town and School Budgets just completed, it is believed that the correct outcomes have been achieved in terms of a balance between amount of budget increase provided and the needs to be met by these budgets.

An opportunity to be explored is understanding and sharing of best practices of other town budget committees. Some initial contact in this regard has been made.

Once again, I would like to thank all Members and Representatives of the Rye Budget Committee, as well as all Town and School Officials involved, for their invaluable contributions and perseverance during the meetings and work sessions. The result continues to provide a valuable service to the Town. In particular, I would like to thank Jim Maheras for his contributions as Vice Chairman, Bob Eaton, Clerk, for his invaluable contribution of high-quality Minutes, and to Ray Jarvis for an excellent job with all scheduling and logistics arrangements.

The effective operation of the Rye Budget Committee would not be possible without the contributions of both Cyndi Gillespie and Nancy Weiland in the areas of providing the necessary financial information and the scheduling and communication of all required interdepartmental work to be done. Thank you for a job well done.

Respectfully Submitted,

Paul Goldman
Chairman – Rye Budget Committee

BUILDING INSPECTOR'S REPORT

The office is open to the public Monday through Friday, 8:00 AM to 12:00 noon. Afternoons are reserved for appointments and inspections. The Building Inspector may be conducting inspections during these morning office hours but Sue Dunfey, Building and Planning Assistant is available.

A building permit is necessary if you intend to construct, enlarge, alter, repair, move, demolish, renovate, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any electrical, gas, mechanical or plumbing system, or anything which is regulated by code, changing the siding, re-roofing, and for any out-buildings, including fences, decks, pools (above and in-ground) and sheds. Electricians and plumbers working on a job must obtain a permit from this office, be licensed in the State of New Hampshire and show proof of such when applying for the permit.

The town is operating under the State Building Code, The International Building Code and Residential Code 2006.

We encourage your questions prior to hiring a contractor or architect, however, it helps if you have your idea on paper for us to review.

Inspections required: after the foundation has been damp-proofed, rough framing completed, electrical and plumbing installed, and final inspection, which is done concurrently with the fire department. If there is a concern about the overall height or exact location of the foundation, a survey may be required to verify the structure meets the zoning regulations.

The fee is 1% of the total construction cost. Electricians and plumbers need to obtain their own permits and pay a fee of \$50 if the cost of the job is between \$1,000 and \$5,000, and \$100 if the job is more than \$5,000.

The Building Department had a 2007 budget appropriation of \$118,080 and revenues of \$103,435.

We issued 409 permits in 2007 compared to 435 in 2006. This year was busy completing many of the project started last year. The following table does not include the permits issued to electricians, plumbers, septic or other specific jobs; only the major projects.

Table comparing recent years - Construction Projects:

CATEGORY	2005	2006	2007
Est. Construction Cost	\$17,177,891	\$14,752,377	
Blg. Permit fees	\$183,813	\$103,550	\$103,435
New Homes	11	12	2
Additions	26	23	18
Demolish and Rebuild Structure	16	17	4

Respectfully Submitted,

Susan Labrie (formerly Zarlengo)
Building Inspector

CONSERVATION COMMISSION'S REPORT

The mission of the Conservation Commission remains unchanged.

This year was extremely busy for the Commission because of the major storm damage on the seacoast; with expedited repair requests needing site walks and reports to be submitted to the wetland board.

The Commission is still working with the U.S. Natural Resource Conservation Service (NRCS) on the invasive species ten-year program and the amendment of the Awcomin contract, to drain the standing water near the recreation area, which will help to eliminate mosquito breeding in that area.

The Open Space mandate started in 2003 is continuing with at least three parcels currently being considered, including the 75 acre LaFrance property off Washington Road. We placed an easement on 25 acres adjoining this land and completed the Marden Woods trail, which is open to the public.

The following citizen alert is to make everyone in Rye aware of the possibility that the local environment could be drastically effected by pending legislation.

CITIZENS ALERT: Proposed Outfall Pipe raises Specter of Onasis Pipeline

What is **EAST**? (The Estuary Alliance for Sewage Treatment)? And what are its implications for Rye and other seacoast towns?

What is a '**regional outfall sewer pipe**', and why might it carry a potential environmental menace for Rye, and New Hampshire's seacoast, including marine life?

Pay close attention: Our drinking water, our estuaries, salt marshes and indeed, the Atlantic Ocean in Rye Harbor are at risk from **EAST**. It is imperative that citizens educate themselves and support the efforts of their Conservation Commission and elected official (i.e. Rye Selectmen)

The Rye Conservation Commission members have been tracking the **EAST** legislation and the proposed regional outfall pipe for more then four years. In the spring of 2003 Senate Bill 70 established a commission to study recommendations for a regional management plan of the Great Bay Estuary. It sounds benign. It is NOT. The purpose is to look at the feasibility of discharging area wastewater and sewage into the Atlantic by creating a watershed district of 44 towns. The collection, conveyance and discharge of wastewater, treated in varying degrees, are under study. Specifics were put forth in Senate Bill 481-FN-LOCAL in 2004. Prominent among the sponsors of the bill were **Senators Russell Prescott** and **Richard Green** who were instrumental in hiring the firm of **METCALF & EDDY, Inc.** of Manchester, N.H. This is the firm that was involved in the construction of the pipe into Boston Harbor. Citizens of Rye and other coastal towns must ask:

WHY WOULD A STATE FUNDED STUDY TO THE TUNE OF \$1 million HIRE THE EXACT FIRM THAT WAS IMPLICATED IN THE BOSTON HARBOR POLLUTION DEBACLE??

More recently, in 2007, Metcalf & Eddy, Inc. asked the Department of Environmental Services for another \$200,000.

They were granted \$20,000. Again, why is there so little transparency and public review of a proposal that involves 44 towns and is actively considering the discharge of sewage into the ocean within the 3 mile zone wherein state jurisdiction trumps federal jurisdiction and control?

Citizens can check out pertinent facts about the study and the process that is largely occurring out-of-public view on: "<http://www.coastalclear.org>

We must also question why there are no headlines in the Portsmouth Herald about the pipeline and the study commissioned in the enabling EAST legislation. Articles that have appeared intermittently have been buried in back sections of the local newspaper.

Increasingly, the goal of EAST is clear: spend as little as possible on sewage treatment so that what is released into the ocean is minimally treated by the 17 towns currently under pressure from the federal government to upgrade their wastewater treatment plants. Early on, Senator Greg's office indicated that the federal government cannot weigh in on EAST because the proposed discharge would not occur in federal waters. Senator Maggie Hassan (state Senator from Exeter) chairs the Committee exploring the 4 options outlined in the EAST study. She is in a pivotal position, but has not yet revealed where she stands.

Among the most contentious issues in the bill are the stipulation that the 44 municipalities in the regional watershed alliance will work together and that towns with concentrations of industrial and commercial land use (i.e. Rochester; Dover) could have the *power to take* land or rights-of-way in other towns (i.e. Rye; North Hampton) as required by the EAST Act. Is this eminent domain?? Stay tuned. This clearly along with many other land use implications with regard to the proposed pipeline is not yet clear.

Finally, Seacoast fishermen and other various impacted parties have spearheaded the opposition to EAST. But, they have often been precluded from studying the reports issued by Metcalf & Eddy in a timely fashion before public hearings because reports are repeatedly issued right before hearings and public meetings. This has consistently made it difficult for stakeholders such as the Rye Conservation Commission to follow and assess the process inherent in EAST. While the fishermen have been persistently vocal, they seem to stand alone. Where are UNH Marine Researchers? The Seacoast Science Center? And the Isle of Shoals? All of whom have the health of the ocean at the heart of their missions.

In effect, the 17 towns among the 44 communities designated as members of the 'regional watershed alliance', are under pressure to bring their wastewater and sewage treatment facilities into compliance with federal guidelines. The firm of Metcalf & Eddy is recommending alternative ways for these towns to **'share the wealth, or more accurately, to move their minimally treated sewage down rivers and into the ocean.** There will be seepage into ground water and worse. Citizens need to be engaged. Public scrutiny of EAST is critical!

Respectfully submitted,

James S. Raynes, Chairman

Members-Douglas Bordewieck, Jeff Gardner, Mike Garvin, Sally King, Paula Mahoney, Ronnie Werner

A glimpse into our past: *History of Rye, N.H. 1623-1903*, L. B. Parsons

Probably earlier than 1644, there was a road or pathway that connected Strawberry Banke, along what are now Middle, Peverly Hill and Elwyn Roads, to Rye, "This pathway for most of its extent was a part of the seashore road which in 1644 extended through Rye to Hampton, and it is not extravagance to assume that it is the oldest road in New Hampshire. Certainly all the probabilities point in this direction. And not improbably the first bridge and the first grist mill built by settlers of New Hampshire were built on this road, near the mouth of Seavey's Creek."*

* NOTE: This is the same area where currently the Seavey's Creek Bridge is being considered for upgrade by the New Hampshire Department of Transportation.

EMERGENCY MANAGEMENT DIRECTOR'S REPORT

Rye's Emergency Management team faced a much quieter year in 2007 than the very busy year of 2006. The lone significant event of 2007 was the April Nor'easter. This storm lasted several days and pounded the coast with very high winds and surf conditions. The sea walls and shale piles that protect Route 1-A from the ocean were flattened and spread across the roadway with each high tide. State crews would then spend the next 11 hours building them back up only to watch them fall again with the next high tide. Town crews were busy keeping our roads clear from flooding and debris deposited by the high winds. We worked with FEMA after the storm in order to help the Town and many property owners recover some of their storm related losses.

The April Nor'easter was the first opportunity we had to coordinate our emergency response function from the new E.O.C. (Emergency Operations Center) located at the Public Safety Building. The E.O.C. worked quite well and it was a definite advantage to have the Police Chief, Fire Chief and Emergency Management Director all under one roof. Communications between emergency responders were definitely enhanced as a result of our new quarters.

Fire Chief and Deputy Emergency Management Director Richard O'Brien left his position in Rye to take the Fire Chief's job in his hometown of Goffstown. He was a great asset to the Emergency Management team and he will be missed. Police Chief Kevin Walsh and our new Fire Chief "Skip" Sullivan are assisting me with many of the Emergency Management responsibilities. One area where we have identified a weakness is in documentation, tracking and organization during and after an event. In order to address that weakness, Planning & Zoning Administrator Kim Reed will be working with us in the E.O.C. when it is activated.

There are three "Seabrook" drills scheduled for 2008 with the final drill being a FEMA graded exercise. These drills provide us with an excellent opportunity to "fine tune" our emergency response for any type of large-scale emergency.

Respectfully submitted,

Alan S. Gould

A glimpse into our past: *Rye on the Rocks*, William M. Varrell, Jr., 1962

FIRST RYE BEACH HOTEL DESTROYED BY FIRE WHILE OCCUPIED

"1912 had been a good year at the Marden House, which was full with between 50 and 100 guests. Everything would have been quite well indeed had it not been for the fact that the hotel was under unofficial quarantine as a result of many of its younger guests being victims of whooping cough. However, everyone seemed to be making the best of the situation when on the night of Saturday, August 17, gasoline from a car parked in the Marden House Stable became ignited, causing that building to burst into flame. The hotel was a large one, extending from Sea Road to South Road with the stable and guest rooms being located at opposite ends. However, these and a number of smaller buildings were all connected, thus sealing the fate of this summer inn as the flames ate from the stable, into the kitchens and finally into the hotel itself. There being no fire department in Rye Beach, apparatus had to be called from Portsmouth while local volunteers attempted a bucket brigade; but by the time the apparatus arrived it was all they could do to keep the flames from spreading to Drake's and Sawyer's Boarding Houses and Locke's bathing pavilion.* Although eventual destruction was evident soon after the blaze was discovered, the hotel was of such size as to insure its orderly evacuation.....The survivors are said to have been quickly absorbed by the resort community....."

* Area of the Rye Beach Club today

ENERGY COMMITTEE'S REPORT

At the March 2007 Town Meeting, Rye voters approved the Climate Change Warrant Article, which in part directed the Selectmen to consider the appointment of a voluntary energy committee to recommend local steps to reduce our town's carbon footprint. On July 23, 2007, the Selectmen established the Rye Energy Committee and appointed Mimi and Steve White and Jaci Grote to the Committee. In October David Daskocil joined the Committee and in December Lucy Neiman also joined the Committee. In summary, the Selectmen charged the Committee:

1. To assess current energy use by Rye municipal activities.
 2. To evaluate what other towns and governmental agencies are doing/recommending to reduce their carbon footprint.
 3. To recommend actions that the Town and individual residents could take to reduce their carbon footprint.
- The Selectmen limited the work of the Committee to the one year to complete these tasks. At the end of a year, the Selectmen will decide whether or not to continue the Committee with new and different charges.

The Committee's approach to accomplishing the Selectmen's charge has been threefold. First, develop a public awareness and education program about the Committee and its purpose. Second, assess energy use in Town buildings and expand that effort into energy use in Rye homes. And lastly, initiate energy related projects that support the aims of the Committee.

1. The public awareness and education program has consisted of publicity in the Town Newsletter and local press, a bulletin board set up in the Town Hall foyer, a fall lecture series co-sponsored with the Friends of Library, a monthly book discussion group (Deep Economy by Bill McKibben in progress, Apollo's Fire by Representative Jay Inslee and Bracken Hendricks in April and May), screening of the movies "An Inconvenient Truth" and "The End of Suburbia", and working with students at the Middle School. All this information and more is on the Committee's web site which is linked to the Town web site (click on Rye Energy). The Committee also manned a table at the polls in January and talked to many voters about the work of the Committee. At every event and meeting, the Committee has a sign up sheet for those wishing to receive emails from the Committee about upcoming events and meetings. There are presently 38 people on the email list. Anyone interested in receiving e mails from the Committee 2 or 3 times a month can contact Steve White.

2. The assessment of energy use in town buildings started with the Town Hall. The Town Garage and Recycling Center have also been assessed. A report of findings and recommendations is being finalized as of January and will be discussed with the Director of Public Works and the Town Administrator and then given to the Selectmen. The Energy Committee applied for and received a grant to assess the energy use at the schools. The Jordan Institute will be doing this work. The NH Carbon Challenge (<http://carbonchallenge.sr.unh.edu/>) has a carbon calculator that is easy for home owners to use to calculate the emissions generated by their homes and cars. Information needed for the calculator is the last 12 months energy use (heating oil, propane, electricity) and miles driven. The average home is responsible for about 50,000 pounds of carbon dioxide emissions yearly. There are 31 actions in the calculator that home owners can then take to reduce emissions and the calculator shows the savings of each action. The Challenge is to reduce your emissions by 10,000 pounds. The Committee encourages all residents to take the Challenge.

3. The Committee is soliciting ideas for energy related projects and is working on a Rye Eats Local project. If everyone ate one local meal a week, the country would save 1.1 million barrels of oil each week. This project is being run as a subcommittee with several volunteers as well as Committee members. More than 40 people have expressed interest in Rye Eats Local. The project will include a newsletter and local buying co-op and may eventually expand to a community garden. Composting at the Elementary School and using that compost in a garden is another project the Committee is working on. The Committee is a member the Rockingham/Stafford County Energy Committee Alliance where towns share ideas and support each others activities. Anyone with ideas for energy related projects or interested in working on a project should contact the Committee.

Respectfully submitted,

Steve White, Rye Energy Committee

FIRE CHIEF'S REPORT

It gives me a great deal of pleasure to present the report of the Rye Fire Department for the year 2007, a year that saw a change in the department's administration, another year of successful state and federal grant awards and the first full year in your new public safety building.

June the 29th was Chief Richard O'Brien's last day as the head of the Rye Fire Department that he had so capably led for the past Three years. Rich left to head the fire department in the Town of Goffstown and retired Chief William H. "Skip" Sullivan of Hampton was appointed to fill the position on an interim basis.

Thanks to the voters at the 2007 annual town meeting, the department was authorized to add one additional firefighter-paramedic to the full time roster. Once we attain the goal of having a paramedic assigned to each of the four work shifts, the chances of surviving a medical emergency in this town will increase in large measure.

The department lost three of the more active call members to area fire departments where they were appointed as full time firefighters. We will continue the never-ending process of recruiting and training "on call" members of our department to become firefighters and emergency medical technicians and hopefully retain them here in Rye.

The department was the recipient of two grants during 2007. The Assistance to Firefighters program awarded us \$48,000 to replace all of our nozzles and water delivery hardware as well as several hundred feet of fire hose, which will be a great enhancement to our fire suppression capability with limited available personnel. The second grant received thru the State of New Hampshire Homeland Security provided \$50,000 for the installation of a radio transmitter on the Breakfast Hill water tank with a link to the Rockingham County dispatch center in Brentwood.

Emergency Activity:

The two severe weather events of 2006 resulted in a huge spike in department activity for that year, so consequently our incidents were reduced from 980 in 2006 to 762 in 2007.

Medical Emergencies.....	366	Hazardous Condition.....	49
Search & Rescue call.....	3	Fire in a structure.....	6
Chimney fire.....	5	Odor/Smoke investigation.....	23
Water Problem; Public Assist.....	42	Outside/ Brush fire.....	9
Motor Vehicle fire.....	2	Motor Vehicle accident.....	48
Fire Alarm activation.....	92	Wires down.....	16
Mutual aid given; Fire & EMS.....	29	Mutual aid received; Fire & EMS.....	73
Total.....			762

In other departmental non-emergency activity, we performed 122 fire inspections and fire drills, issued 765 permits for outside fires and 87 permits for heating equipment, occupancy and places of public assembly.

Respectfully submitted,
William H. Sullivan, Chief of Department

FOREST FIRE WARDEN AND STATE FOREST RANGER'S REPORT

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. Under State law (RSA 227-L:17) a fire permit is required for all outside burning unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214.

Fire activity was very busy during the spring of 2007, particularly late April into early May. As the forests and fields greened up in later May the fire danger decreased. However, a very dry late summer created very high fire danger again from August into September, with fire danger reaching very high on Labor Day weekend. Even with the dry conditions, the acreage burned was less than half that of 2006. The largest forest fire during the 2007 season burned approximately 26 acres on the side of Wantastiquet Mountain in Chesterfield during the month of May. Our statewide system of 16 fire lookout towers is credited with keeping most fires small and saving several structures this season due to their quick and accurate spotting capabilities. Many homes in New Hampshire are located in the wildland urban interface, which is the area where homes and flammable wildland fuels intermix. Several of the fires during the 2007 season threatened structures, a constant reminder that forest fires can burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their homes. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

ONLY YOU CAN PREVENT WILDLAND FIRE

HEALTH OFFICER'S REPORT

The year 2007 has been a busy and challenging one. The number of on-site inspections of various buildings, both public and private, continues to increase each year, as do the reasons for them. This year the State of New Hampshire has mandated that local officials inspect the schools using new and in-depth guidelines. Susan Labrie, Rye Building Inspector, and I have been performing these inspections and will continue to do so in 2008. I also have continued to inspect the day care facilities and similar operations as the need arises. I would like to stress that any facility or organization that is aware of the need for an inspection notify me in a timely fashion.

Both Eastern Equine Encephalitis (EEE) and West Nile Virus (WNV) continued to represent potential problems to the State of New Hampshire and to our Town. In 2007 there were 3 human cases of EEE in nearby towns: a 13 year old boy in Newfields, a 38 year old in Hampton, and a 69 year old in Newton. None of these people died but some were apparently left with residual medical issues. Also, a horse in Kensington died from this disease and an alpaca in Raymond had to be euthanized because of it. Fortunately, there were no human or animal cases of EEE in Rye and no mosquitoes tested positive in the Town. There were, however, mosquitoes that tested positive in Newton, Fremont, Brentwood, and Kingston. With regards to West Nile Virus, 2 birds tested positive in Rye. Fortunately, no human cases were reported in the State of New Hampshire in 2007. It should be noted that this year nearly 50 towns sent mosquitoes to Concord to be tested on a weekly basis and this included the Town of Rye. As in previous years, I have continued to work closely with the Superintendent of Schools, Dr. George Cushing, and the Mosquito Control Commission concerning when and where to perform supplementary spraying during periods when threat from EEE and WNV were the greatest. I believe that the potential problems posed by both of these disease entities will continue indefinitely in the future. As in the past, I will continue to urge citizens to be proactive in preventing the mosquito-borne viruses. Measures such as using mosquito repellent, wearing long pants and long sleeve shirts and eliminating standing water will greatly improve your chances of not contracting EEE and WNV.

Rabies continues to be a threat to our State and to our Town. Fortunately, there were no human cases of Rabies reported in the State of New Hampshire in 2007. Also, no animals were reported as being positive in the Town of Rye. There were, however, 19 animals that tested positive for this disease in Rockingham County in 2007 (8 raccoons, 5 skunks, 1 grey fox, 1 cat, 2 large brown bats, and 2 woodchucks). A total of 53 animals were positive in all the State of New Hampshire (in 2006, 50 animals were positive). I continue to stress the importance of having all pets vaccinated against Rabies.

I would like to express my appreciation to the Board of Selectmen, Town personnel, and to the Citizens of Rye for their continued support and cooperation. I look forward to a very productive 2008.

Respectfully submitted,

Gail A. Snow, MD
Health Officer

HISTORIC DISTRICT COMMISSION'S REPORT

Rye Historic District extends from the west end of Grange Park at the intersection of Wallis and Washington Roads to the intersection of Central and Washington Roads and within five hundred feet on either side of the centerline of Washington Road. Also included in the Rye Historic District are the State of New Hampshire Isles of Shoals (Star, White and Lunging Islands), the Brackett Road Massacre Site at 605 Brackett Road and the historic Cable House located at 20 Old Beach Road.

The Historic District Commission seeks to preserve the historically, architecturally and culturally significant buildings and structures, which characterize the Town of Rye and to encourage their maintenance and restoration.

Owners of property within the District are required to apply to the Commission for permission to make alterations, restorations or do maintenance work, including the installation of permanent signs.

In the past year, two long time members of the Commission asked to be relieved of their positions. Ellie Stewart was a member for almost 22 years! Jane Holway's long term included six years as Chair. Both of these volunteers will be remembered for their valuable work on the Commission, for their devotion to the Town of Rye and for their fervent belief in the importance and integrity of the Rye Historic District.

Rye Historic District Commission meetings are held in the evening as needed. Currently, there are two openings for alternates. If interested, please contact Town Hall (964-5523) or the Chair.

Respectfully submitted,

Paula Merritt, Chair

A glimpse into our past: *History of Rye, N.H. 1623-1903*, L. B. Parsons, 1905

IT TOOK US A WHILE TO BECOME RYE

The Parish of Rye

"For a century after the first settlement of white men within its borders - that of David Thompson's party, at Pannaway, - Rye has no history as a town, because as such it did not exist. The settlement at Pannaway has always been treated by historians as the first settlement of Portsmouth, as indeed it was, the peninsular, and the remainder of Rye as well, having been a part of Portsmouth until toward the end of the seventeenth century; but certainly it was no less the first settlement of Rye, for the site of that settlement - the Pannaway of Thompson and the Little Harbor of John Mason - is now in Rye and not in Portsmouth.

.....It was called Sandy Beach for some years, and was connected with Portsmouth until the incorporation of Newcastle, May 30, 1693, and was thenceforth a part of the last named town until separated by an act passed April 30, 1726, and, in connections with portions of Portsmouth and Hampton incorporated as "a parish by the name of Rye". By this act Rye was to send a representative to the assembly, and the selectmen for that year were to be William Seavey, Jr., Samuel Brackett, Joshua Foss, Richard Goss, Joseph Philbrook, John Garland, Richard Jenness, Lieut. William Lock, and Joseph Lock. The town elected Richard Jenness to the assembly the same year."

HISTORICAL SOCIETY'S REPORT

The first priority of the Rye Historical Society (RHS) has always been to maintain and operate the town museum and try to offer services to residents and others. Toward that end, the past year was a success. We also made improvements to the current exhibit on hotels and boarding houses of the 19th and early 20th century and we also floated the idea for the next exhibit – the history of land use in Rye. Anyone interested in helping with this project should contact society chair: alexherlihy@comcast.net.

Our archivist continues to digitize the collection so that we can make our web site user friendly. (To visit the web site, go to rye nh homepage; scroll down to “community”.) The biggest event was the Antique Appraisal Day in August, which brought a huge turnout and created traffic jams around the library. Next year, 2008, it will be held in the church vestry. We also sponsored a program on historic gardens, which was well attended.

In order to better serve the people of Rye we offer the following opportunities for you to get involved at your level of interest. These categories are current needs of the society. We have a wonderful asset in the town museum and the society is a solvent organization with a good reputation for fund raising. The main thing we are missing is people....volunteers....interest. We think that Rye people ARE interested in the past and present and future of the town, but have not had a chance to see how the historical society and the museum could meet that interest. Give us a chance; check out the following list and see if there is a niche for you. If you find one, contact the e-mail above or write to us: RHS, PO Box 583, Rye NH 03870. We look forward to hearing from you.

Needs of the Town Museum and historical society: volunteers to staff the museum in two hour shifts on Saturdays 10-2, from May through October; helping to plan the new exhibit on history of land use in Rye; writing and administering grants; working to develop and implement history-based programs in the schools; museum maintenance; computer work of all kinds; serving on the RHS Board; conducting oral histories of older residents; doing research to help update the town history; maintaining and restoring old graveyards of Rye; developing a historic building committee to help Rye's heritage, etc.

Respectfully submitted,
Alex Herlihy, chair, Rye Historical Society

A glimpse into our past: *History of Rye, N.H. 1623-1903*, L. B. Parsons, 1905

“Although the first meeting house was built before the Sandy Beach district of New Castle was set off as the parish of Rye, it was not until many years later that the first bell was placed in its steeple. At the annual meeting in March, 1763, it was “Voted to raise 500 pounds, old tenor, towards buying a bell.” Apparently this vote failed of being carried into effect, for at the March meeting in 1764 the town again “Voted to raise 500 pounds, old tenor, towards buying a bell”; and this latter vote, or the votes of two meetings conjoined, proved effective, for in 1766 it was “Voted that the three men chosen to buy the bell hire persons to hang it”; and shortly after it had been hung, in the same year, there appeared an article in the warrant for a town meeting “To see if they will stop to ringing the bell at an unusual time on the Lord's day”. From this it may be inferred that, the bell having been procured and hung, some of the people of the town, presumably the younger ones, regarded it as a sort of public toy, to be played at unseasonable times, instead of being reserved to call voters to town meeting, or the populace at large to the solemn duty of listening to almost interminable sermons and prayers.”

Town meeting action was not recorded; but the following, according to L. B. Parsons, is copied from the original document: “To Mr. James Goss, Sir: There is a Complaint against you by Mr. Daniel Philbrick for Ringing the Bell the last Lord's Day. I believe you had better come & pay your fine, other Ways you may be exposed to Court & trouble from ye friend and Servant, Richard Jenness 3d.”

LIBRARY DIRECTOR'S REPORT

2007 was another active year for the Rye Public Library, marked by an 11% increase in programming for all ages, the acquisition of media in new formats such as downloadable audio books, music, and licensed databases, including: *New England Ancestors*, *Legal Forms*, *Grolier Online*, *Reference USA*, and *Learn-A-Test*, and several significant technological upgrades. Thanks to the generosity of the Friends of the Rye Public Library, we were able to install a plasma screen television, film projection surface, and a new sound system in the library's Community Meeting room for the enjoyment of all. Additional changes included moving the library's computer network to Comcast, switching our Internet service provider, upgrading our library catalog to include several service enhancements, and launching a new professionally designed web site at www.ryepubliclibrary.org.

Many thanks to the library's web advisory group consisting of Trustee, Victor Azzi, resident, Judy Underwood, and staff members, Martha Jones, Lisa Houde, and Gwen Putnam-Bailey who reviewed several noteworthy library websites and made initial design recommendations. Thanks also to local photographers, Don Osborne and Bruce Parsons, who generously granted permission to have their beautiful photographs of the building and local area incorporated into the design. We hope that you will visit the Rye Public Library's new virtual presence often.

The Rye Public Library was able to offer a wide variety of educational programs thanks to the generous support of the Friends of the Rye Public Library. This year's speaker series on the environment, co-sponsored by the Town of Rye's Energy Committee, drew large crowds to hear lectures by Dr. Cameron Wake of U.N.H.'s Climate Change Resource Center, and Julia Dundorf and Denise Blaha of the N.H. Carbon Challenge. The Friends also sponsored a book signing with Stephen Clarkson, musical performances, and multiple computer seminars with instructor Judy Underwood on such timely topics as digital cameras, e-Bay, creating a book with Shutterfly, and using Microsoft Vista. The Friends also sponsored a fall open house to showcase the library's new audiovisual enhancements, and continue to underwrite the expense of the library's popular museum pass program. We are very grateful for their creative ideas and ongoing support, which enables us to offer a multitude of high quality programs.

Statistics for 2007: Number of Patrons 3,534 - Total Number of items circulated 68,183 - Interlibrary loan materials borrowed 1,548 - Materials loaned to other libraries 1,032 - Community Meeting Room Use 398 - Number of library programs 397.

172 readers participated in the N.H. Statewide Summer Reading Program, "*Reading Road Trip U.S.A.*" Summer activities ranged from art classes, to concerts, storytelling, author talks, and a very popular wildlife program. Thanks to Exeter Town Planner, Sylvia von Aulock, who designed 10 regional U.S.A. posters to display in the children's room during the summer. A program highlight included an evening with Professor Snape, in which Youth Services Librarian, Lisa Houde, donned an authentic-looking Professor Snape costume and set the scene for a potions lesson in the "dungeon" classroom. The evening focused on several readings done by Professor Snape as well as a discussion about the upcoming final installment in the Harry Potter series.

317 adult readers also participated in the Rye Public Library's first summer reading program for adults. Many thanks to our program sponsors the Ice House, Lagos Lone Oak, Barone's Steak Shack, the Hungry Horse, the Carriage House, the Potting Shed, and Nature's Outpost for their generosity in donating prizes.

A special thanks to Rye resident, Cindy Baker for conducting our Babbling Books for Babies reading program during the fall, and to all of our wonderful volunteers, who collectively logged 556 service hours.

The Library's outreach to Rye's senior residents has continued with librarian Gwen Putnam-Bailey transporting a total of 257 seniors to the library on Monday afternoons via the SeniorSERVE van to select materials and enjoy fellowship with their peers. The library also continues to deliver materials to homebound residents and acts as a referral service for SeniorSERVE's daily call program.

On March 5th Lisa Houde, Margaret Hutchins and I participated as guest readers at the Rye Junior High and Rye Elementary Schools in celebration of NEA's Read Across America Day.

Thanks to Mr. and Mrs. Henry Ciborowski for donating an external automated defibrillator to the library and to firefighter, Charles Gallant for training nine staff members on its use.

Thanks to the Rye Public Library's Fine Arts Committee for coordinating such a variety of lovely art exhibits throughout the year.

Thank you for welcoming me back to Rye in my first full year as your Library Director. It has been very rewarding to implement several service improvements, and I look forward to additional changes in the coming year.

Respectfully submitted,
Kerry E. Cronin, Library Director

RYE PUBLIC LIBRARY BOARD OF TRUSTEES REPORT

This was another exciting and productive year in the long noble history of the Rye Public Library. It has also been a year of further reflection, reappraisal, planning, and the introduction of more new initiatives designed to position the library, its staff, and particularly its patrons, to continue to grow into the twenty-first century.

In March of 2006, the Townspeople had approved a Trustees-initiated warrant article to expand the Board from three to five members, to enable the Trustees to benefit from more participation and input from a broader variety of perspectives. In March of 2007, the Townspeople elected Sallie Mackie and Joan Sweeney for one-year and two-year terms, respectively, to fill those two new seats on a staggered basis. In the same election, incumbent Victor Azzi was re-elected to a new three-year term, allowing him to continue to serve alongside continuing incumbent trustees, David Brown and Debbie Genestreti.

Working with the newly appointed Library Director, Kerry Cronin, and the Staff, new initiatives have been undertaken to plan for the future needs of the RPL and its Patrons, and to better serve the Community at large, based on the results of a comprehensive survey of Rye residents, year-round and seasonal, using the professional services of the University of New Hampshire Survey Center. Our analyses of the results have helped us to develop more focus for our vision and mission of the RPL. A new Mission Statement has been approved and meetings with distinct Focus Groups are planned to receive even more direct and detailed input from the Community.

The Trustees have strived to maintain a consistent level of capable, welcoming, experienced, and dedicated staff whose goals are to serve the expressed needs and desires of our patrons and residents. The Library Staff continues to broaden and optimize the diverse media holdings and programming opportunities available at the RPL. Working with the NH State Library, we are now seeing increased usage of **Downloadable Digital Audio Books**. The RPL continues to grow as the **Community Center**, a cultural center, of the Town of Rye with engaging programs and activities initiated by the Staff, the Friends, and other non-library groups. The increased demand on our facilities, including the **New Hampshire Room** and the **Community Meeting Room (CMR)** is but one tangible measure of this. Through the generosity of the **Friends of the Rye Public Library**, we were able to design and upgrade substantially the audio/video/information technology equipment and infrastructure in the CMR. This allows our Staff, speakers, film series, and many other current and would-be users of the CMR to expand and enhance their popular offerings that occur with ever-increasing frequency in this popular venue.

During the course of the year, we were surprised to learn that we needed to deal with building infrastructure problems caused by water intrusion into the building. Working with excavation and drainage contractors, we determined that the likely cause was a malfunctioning exterior foundation-wall drainage system. We devised and implemented a mitigation plan that included additional catch basins and below-grade drainage lines on the exterior, and limited wall repair and carpeting removal on the lower-level interior, of the building. These fixes appear to be working. Our ability to deal with this situation expeditiously was facilitated because the voters had approved our annual warrant-article requests, for three prior years, to prudently set aside and accumulate limited contingency funds. The understanding and agreement was that this would enable us to respond to costly contingency events that, in probability terms, are likely to arise at some unknown time in some unknown RPL building subsystem. This particular experience reinforces the needs for the RPL to set aside, as a reserve, limited funds in order to respond to emergency events for which funds are not available in the normal yearly RPL operating budget that is designed to cover only normal predictable recurring operating maintenance costs. We thank the voters for their support in approving the funds in the prior years that helped us to effect the solution when and as it became necessary. As we worked to resolve this fix in a timely manner, we found a need to expend funds from other line items in the RPL budget. However, upon receiving a timely and generous gift, we found that we were able to augment the RPL media budget and restore our media-acquisition plans to the level planned for 2007. Thus, through careful budget management and a generous gift, we were able to satisfy our projected budget for the year.

The RPL undertook a major initiative, involving Staff, Trustees, and an outside consultant to design and create a new inviting, welcoming, exciting, useful, and user-friendly web site for the Rye Public Library. The website was launched, is working well, and has been favorably received. However, the major substance of the RPL continues to be, on a daily basis, providing the media, programs, and services that the community needs and wants. We can do this only with our loyal and dedicated Staff, our **Friends of the RPL** and the numerous **Volunteers of the RPL**, through their extensive and priceless support, through their many hours of service, and to a wide variety of special programs and activities, including Speaker Series, Film Series, Music Events and Receptions, and this year's first annual Holiday Open House, that would not be available otherwise.

This was a year of great accomplishment and new beginnings, in no small measure, made possible only with the generous and steadfast support of the taxpayers and patrons, a dedicated staff and director, and a committed and involved Board of Trustees who continue to feel honored to serve the Town and its Residents. Your Library is a **Gem**, indeed. We thank you, again.

Respectfully Submitted,

Victor D. Azzi, Chairman of the Board

MOSQUITO CONTROL COMMISSION'S REPORT

In retrospect the 2007 mosquito control season was a success. There were fewer complaint calls regarding high mosquito activity and those that were reported were confined to small areas. Most notably, no Rye residents were reported as being infected with Eastern Equine Encephalitis (EEE) or West Nile Virus (WNV). Both are dangerous mosquito-borne diseases that can be fatal. Unfortunately, three NH residents did develop serious illness after becoming infected with EEE.

Consequently, the State of NH Department of Health and Human Services (NH DHHS) is carrying over the Public Health Threat from 2007 to 2008. This includes towns in Rockingham County and many other high risk towns. As before, these towns will be eligible for reimbursement of up to 25% of the expenses incurred for mosquito control activity. The Town of Rye recently received reimbursement for \$16,962.00 of its 2007 mosquito control expenses. Special mention to fellow RMCC member, Charles Arcidiacano, for all his work preparing this years, and last years, grant applications. Well done, Charlie!

In 2008 the Rye Mosquito Control Commission (RMCC) plans to continue with its proactive approach to mosquito control by emphasizing expanded surveillance, careful monitoring and timely larvaciding of mosquito breeding sites. Controlling mosquitoes in the larval stage is far more cost effective than adulticiding (street spraying). The RMCC is also pursuing non-chemical approaches using marsh management techniques which have proven to result in long term solutions because they reduce or eliminate breeding sites.

The RMCC in conjunction with other interested State Agencies is planning on presenting educational outreach programs for Rye residents and students. Adult programs would include seminars on EEE, WNV, Lyme Disease (ticks) and mosquito control. School programs include marsh ecology and mosquito biology with many live specimens to observe.

Respectfully submitted,

Tom Aspinwall, Chairman
Rye Mosquito Control Commission

A glimpse into our past: *History of Rye, N.H., 1623-1903*, L. B. Parsons

In his chapter titled **Ferries, Bridges and Roads**, L.B. Parsons described the transition from footpath to public road as follows: "In the early days of the province, when roads were laid out there was no thought of fencing them by the town or towns that laid them out, or of compelling the settlers through whose lands the roads passed to be at the labor and expence of fencing their premises on both sides of the roads. Whenever a road cut the fence of a settler he could put up a gate or set of movable bars, or the town did it for him; the traveler, in his use of the highway, had a full right to open the gate or remove the bars, but he had no right to leave open the gate or the bars down; he was obliged to leave them as he found them, and if he did not do this he was responsible for any damage that might result from the straying of cattle, etc., in consequence. As the number of settlers along the line of a road increased, so would the number of gates and bars, and with the increase of travel between one town and another these obstructions would become more and more of an annoyance, and the main highways of communication would be fenced in and the gates and bars along them removed; and then, gradually, the side roads would be similarly improved, and highways subject to gates would generally be changed from mere public rights of way to open and unobstructed public roads."

PLANNING BOARD'S REPORT

The year was challenging for the Rye Planning Board based on the number and complexity of the applications. They ranged from lot line adjustments to a major subdivision of a parcel over 57 acres in size on Lafayette Road. Related to the 57 acre subdivision was an application for a 22 unit Retirement Community Development (RCD); the RCD zoning was approved by the March 2006 Town vote. The Planning Board approved the Site Plan at the December 11, 2007 meeting. The Special Use Permit still needs to be voted on by the Planning Board and is scheduled for the February meeting. Please check the minutes for the outcome.

Another proposal on Lafayette Road was approved to allow Barone's Steak Shack to be replaced with a permanent building with greater customer amenities. Further south, the seasonal farm stand was formally approved to relieve the proprietor of the burden of renewing annual permits. Many other applications and conceptual consultations were heard by the Planning Board. The 2006 Rye Master Plan was approved in 2007.

Based on the number of proposals relating to properties along Lafayette Road and in accordance with the 2006 Rye Master Plan, an amendment to add an Aquifer Protection Overlay District to the Zoning Ordinance has been proposed for the March 2008 ballot. Rye has substantial water resources on the west side of town recharged by surface water. This zoning amendment is consistent with protections found in the zoning of other nearby communities and has the goal of protecting the water quality of private and Town water wells. Rye is fortunate to have adequate water resources at this point in time. Thoughtful development backed by the proper zoning requirements will go a long way towards preserving our water resources into the future.

Below are the proposed amendments to the Zoning Ordinance for the 2008 March ballot under Article 3:

Amendment 1: to add an Aquifer Protection Overlay District;

Amendment 2: to amend Section 401.4 C Re: Frontage Requirement for RCD's;

Amendment 3: to amend the definition of "Garage" found in Appendix A;

Amendment 4: to amend Section 401.4 re: Requirements for Density Bonus for Cluster Layout of RCD's;

Amendment 5: to amend Section 401.4 re: Recreation & Community Facilities in RCD's; and

Amendment 6: to amend Section 303 Historic District, as requested by the Historic District Commission.

Four of the amendments were proposed based on lessons learned from working on the RCD application described above. The complete amendments are available at Town Hall.

Some years there seems to be little turnover in the make up of organizations. This past year was one of transition for the Rye Planning Board. We welcomed Mrs. Jaci Grote, Mr. Samuel Winebaum, and the return of Mr. Mark Galvin. Mr. Robert Brown resigned as a full member and became an alternate; as well as, Mr. Martin Zivic and Mrs. Patricia Weathersby. Over the course of the year, a strong sense of teamwork has developed that will only serve to benefit the citizens of Rye.

The members of the Rye Planning Board are elected to represent the interests of the Town and its residents. Please know that we have been working hard on your behalf to ensure that projects do not result in any unintended consequences. We are also trying to be proactive where possible and to anticipate development trends. This will go a long way towards heading off potential problems before they arise. If you have any questions related to the Planning Board, please feel free to visit us at a meeting, usually the second Tuesday of each month, so that you may get your questions properly answered.

Respectfully submitted,
Donald A. Cavallaro
Chairman, Rye Planning Board

POLICE CHIEF'S REPORT

The Rye Police Department returned to full staff on April 3, 2007 when Officer Scott Sullivan joined the Department. Scott had been a Vermont State Trooper prior to joining Rye Police.

Due to the volume of calls, the police department is using several hours to complete investigations. For example: On July 14, 2007 the police were dispatched to three motor vehicle accidents, all of which involved the arrest of each of the drivers for Driving While Intoxicated. These accidents and arrests all occurred within twenty-two hours of each other.

There were two fatal motor vehicle accidents, both of which involved alcohol. Many hours are needed to investigate and reconstruct fatal accidents. We also investigated a drive-by shooting. All of these investigations take officers many hours to interview victims and witnesses, write reports and coordinate information for the County Attorney and state and federal agencies

The Rye Police Department has a website, www.ryepolice.us, designed by one of our officers, Bill Blais. We recently had a family from out of state contact us to let us know a parent has Alzheimer's Disease. We are now working to get a form onto the website so we can be notified if a family member has any dementia issues or anything else a family member might feel emergency personnel should know. If you have any suggestions for improving our website, please let us know.

We continue to emphasize high visibility patrol. Extra patrols including plainclothes and beach patrols were funded by grants totaling \$8,620.14. These extra patrols include alcohol compliance checks on local businesses, speed and DWI enforcement. The DWI enforcement patrols were conducted concurrently with area local law enforcement agencies. The goal is to make greater public awareness of alcohol and drug-impaired driving issues and reduce serious motor vehicle crashes, injuries and deaths.

The Rye Police Department would like to thank the citizens of Rye for supporting us. The following are some of the statistics from the past year:

8,495 calls for service	219 arrests	346 alarm responses
1,931 motor vehicle stops calls	127 accident investigations	391 animal control
110 911 hang-up calls	361 medical aid calls	43 domestics
31 juvenile offenses		

\$23,798.40 in parking fines was collected and \$5,513.13 in court fines was collected.

Respectfully Submitted,

Kevin Walsh
Chief of Police

CENTRAL ROAD CULVERT REPLACED

2007

Replacement of the culvert under Central Road, which conducts the flow of Cedar Swamp Run from the Burke's Pond dam outlet on toward Red Mill Lane and Eel Pond, was necessitated by major damage during the 2006 Mother's Day storm.

NEW
BOX CULVERT
REPLACED
THE DAMAGED
STONE CULVERT.

UTILITIES
ALSO CROSSED
THE
STREAM BED.

PUBLIC WORKS DIRECTOR'S REPORT

In 2007 we continued our work on a number of roadway improvements and made some additional changes at the recycling center in an effort to maintain our service to the town while being sensitive to the concerns of our immediate neighbors.

Work completed at the recycling center included building a new office for the attendants, a new roof for the oil building, new concrete floor and sides on the green glass bin, and moving the compost pile to the other side of the lot. We also redesigned the fence along Grove Road and placed additional plantings to improve the look from the road. A total of 1,502 tons of trash was processed and we recycled 1,139 tons of materials. This was a minor increase in trash and, thanks to your efforts, a significant increase in recyclables. This activity produced \$73,920 in revenues for the town.

Roadway improvements took place in many different areas of town. We installed 320 feet of drainage, completed shoulder work on Sagamore, Forest Green, Long John, and Central Roads, and installed a box culvert in the area of Red Mill Lane and Central Road. Improvements were also made in Rand's Spring, Powers Ave., Perkins Road and Grove Road.

14,982 feet or 2.84 miles of paving was laid during the year as well as a complete new parking lot and roadway at the Junior High.

At the Public Works Department we take great pride in keeping our roads safe for travel during winter storms. In 2007 we had 13 storms, which required either plowing and/or sanding.

I would like to take this opportunity to thank the entire public works team for all their hard work in 2007 and we would like to thank you for your support and cooperation this past year. We look forward to continuing to serve you in 2008.

Respectfully submitted,

Everett E. "Bud" Jordan, Director
Public Works Department

SOUTHEAST REGIONAL REFUSE DISPOSAL DISTRICT 53-B REPORT

The Southeast Regional Refuse Disposal District 53B provides coordination between Waste Management and the District's member towns: Brentwood, Fremont, Hampton, Hampton Falls, Kensington, New Castle, North Hampton, Rye, Sandown and South Hampton. In 2007, the District introduced significant operational changes designed to reduce its operating costs and costs to the towns. **Mark your calendar with these dates for the 2008 Household Hazardous Waste Collection Days: In Hampton on Saturday May 10th and in Brentwood on Saturday, September 6th.**

RYE RECREATION COMMISSIONER'S REPORT

The Rye Recreation Commission believes that recreation provides a critical foundation for the quality of life that makes Rye unique. Recreation is essential to the health and well being of the individual residents and the community of Rye. Recreation activities and services have far-reaching personal, social, economic and environmental benefits. The role of the Rye Recreation Department is to ensure that a broad range of recreation opportunities is available and accessible for all residents and that these are consistent with the needs and interest of the community and the space and resources available.

In 2007 programs offered included speaker series, swim lessons, indoor tennis lessons, ski and snowboard lessons, track and field program, basketball league, pick-up basketball, basketball clinic, golf lessons, soccer league, yoga, pilates, ballroom dancing, tap dancing, dance fitness, winter day camp, babysitter's course, adult and infant CPR courses, first aid courses, internet safety workshop, Russian nested doll painting workshop, lego robotics workshops, knitting workshops, summertime horyezons day camp, lego robotics camp, baseball camp, basketball camp, soccer camp, golf camp, pottery classes, and paint your own pottery classes. The After School Program is open to grades K-5, 2:40 – 5:50 p.m. daily and continues to prosper.

Rye Art in Bloom has been held for the past seven years and is a successful community event fostering relationships among the Recreation Department, Webster at Rye, Rye Art Study Group and Rye Driftwood Garden Club. Other events sponsored by the Recreation Department in 2007 were the Memorial Day Ceremony, which includes a poster contest for Rye Elementary School students and a poetry contest for Rye Junior High School students, and the Independence Day Celebration.

The Recreation Commission conducted a Rye Recreation Survey in the summer of 2007 to assist with the development of a comprehensive master plan to address the community's future park and recreation needs. The returned surveys totaled 243 representing 685 individuals including the respondents. It is expected the final Recreation Master Plan document will be available in the spring of 2008.

Brief Summary of Survey Results:

Question #1. *Have you or your family visited any of these parks or recreation facilities in the last year? If yes, please rate the parks or facilities on their quality.*

- The ten highest rated facilities were: Parsons Field, Cable Road Extension Beach, Sawyers Beach, Wallis Road Extension Beach, RES Gymnasium, Town Forest Trails, RES K-3 Upper Playground, RES 4-5 Lower Playground, Flash Jenness Memorial Little League Field and Lang Corner Athletic Field.

Question #2. *Please rank ten facilities listed below that you would like to see developed or expanded.*

- Top fifteen listed: Biking Trails/Lanes, Walking/Jogging Paths, Public Open Space for walking and wildlife, Outdoor Tennis Courts, Indoor Pool, Outdoor Pool, Outdoor Ice Rink, Community Center, Neighborhood Parks, Improvements to the Recreation Area Playground, Picnic Areas, Running Track, Indoor Tennis Courts, Soccer and Lacrosse Fields and Outdoor Basketball Courts.

Question #3. *What Rye Recreation programs listed below have you or any family member participated in over the last 5 years? Please check appropriate space below and rate the program instruction.*

- The highest rated programs were: Memorial Day Ceremony, Babysitting Course, Soccer Camp, Yoga, After School Program, Tennis Lessons, Recreation Basketball, Adult Pick-up Basketball, Basketball Camp, July 4th Celebration, Rye Art in Bloom, Recreational Soccer League and Pilates. Those with the highest participation included: July 4th Celebration, Recreational Soccer League, Memorial Day Ceremony, After School Program, Soccer Camp, Tennis Lessons, Summertime Horyezons, Recreational Basketball League, Yoga and Rye Art in Bloom.

Question #4. *Please list any other recreation programs that you or any family member would like to see offered in Rye. Include any programs that you are traveling outside of Rye to participate in.*

- Respondents listed over 94 program ideas. The most frequently mentioned programs were: Swim Lessons, Bus Trips, Fitness Opportunities, Kayak Lessons, Surfing Lessons, Senior Activities, Ice Hockey, Toddler Programs, Community Garden, Volleyball Program, and Outdoor Tennis Lessons.

Question #5. Please rank [1 being the most important] the types of trails needed in Rye for Recreational purposes.

- The highest ranking was: First, On street (shoulders) bicycle lanes throughout town. Second, Unpaved trails for mountain biking, walking, x-cross country skiing. Third, Paved off street trails for bicycling, mountain biking, walking, in-line skating, etc.

Question #6. How do you usually hear about Rye Recreation Programs? [Please check all that apply.]

- Most respondents obtain recreation news from the Town Newsletter: Town Newsletter (204), Flyers distributed through schools/organizations (92), Signs (73), Word of mouth (67), Newspaper (41), Town Website (31), and Stop in or call the Recreation Office (12)

Question #7. How would you prefer to register for Rye Recreation programs?

- Online and mail-in registration methods were preferred by most respondents: Register directly on-line (281), Mail in registration information (233), Come into the Recreation Office at Town Hall (123), Use a drop box located outside the Recreation Office (95), Designated Sign-up Night (60), Use a drop box at the Library (6), and Register at the activity (2).

Question #8. Please rank [1 being the most important] what would be the most convenient payment process for you.

- The preferences in order from the most popular were: Credit Card, Check, Debit/Bank Card and Cash.

Question #9. Do you feel that the programs that you or any family member has participated in are a good value?

- The respondents answered overwhelmingly yes.

Question #10. Why do you or any family member not participate more frequently in Rye Recreation programs?

- The top five reasons were: Lack of time, No interest in the programs offered, Lack of information, Program time is not convenient, and the respondent is a member of a private club that fulfills recreation needs.

Many additional comments were shared. The following are a few of the comments offered:

- The Recreation Area needs better drainage, bleachers, playground, basketball court, improved buildings for programs and a Town Forest path map.
- Cable Road Ext. and Wallis Road Ext. Beach areas need parking improvements, accommodation for bicycles and better trash pick-up.
- Parson's Field could be used for plays and concerts with a new bandstand gazebo.
- The school fields need turf improvements; Lungs Corner Field could be improved with the addition of portable bathrooms, backstop and seating.
- More advertising for programs and more programs for older children.
- A community center, tennis courts and swimming facilities are needed.
- The Rye Recreation Department was universally praised for excellent service to the community.

The Recreation Commission thanks all residents who responded to the survey. Please contact the Recreation Department or visit the Town of Rye Website for the full survey results and Master Plan as it becomes available.

The Recreation Commission is a voluntary board that meets monthly. Meetings are open to the public and your attendance is welcomed. Current Commissioners are Bob Blanchard, Stephen King, Mark Luz, Paul Mackey, Gregg Mikolaities, Jim Sullivan, and Janet Stevens, Chairman. Full time employees include Lee Arthur, Recreation Director and Jonathan Carleton, Program Director.

This past year we had over 100 volunteers assisting the delivery of programs and services. Their support is greatly appreciated and needed.

Respectfully submitted,
Janet Stevens, Chairman

SEWER COMMISSION'S REPORT

The Sewer Commission is responsible for the administration, billing, operation and maintenance of the Rye Sewer District. The District has five hundred and twenty four accounts, which includes three new connections in 2007. The Commission also administers the billing and operation of Adams Mobile Home Park on Lafayette Road in Rye which is connected to the City of Portsmouth sewer system. The Sewer Commission is in the process of renewing the Inter-municipal Sewerage Agreement with the City of Portsmouth.

Inspections at the three pumping stations are performed daily by the Clerk of the Works to insure the system is operating properly. Station maintenance is contracted out to the Town of Hampton. The Sewer Commission is in the process of renewing the Agreement for Treatment and Disposal of Wastewater with the Town of Hampton and currently working on a Collection System Operations and Maintenance Plan required as part of the EPA National Pollutant Discharge Elimination System (NPDES) Permit.

The Sewer Commission has a process for abating customers for accessory or incidental water usage that does not enter the public sewer system. A permit is required and customers are responsible for the installation and expense of a secondary meter. The meter is read annually and the customer is abated for the consumption. In 2007, three applications for secondary usage water meters were received.

It is important to note that no person shall discharge or cause to be discharged to the wastewater facilities any unpolluted or polluted waters such as storm water, ground water, roof runoff, or subsurface drainage.

The current Sewer Commission consist of David W. Kohlase, Chairman; Peter G. Kasnet, Vice Chairman; David M. Adams, Commissioner, Walter J. Parenteau, Clerk of the Works; and Lee Arthur, Administrative Assistant. The Sewer Commission would like to take this opportunity to recognize Leon H. Valley for his dedicated service as a Sewer Commissioner for the Town of Rye from 1993-2007.

The Sewer Commission Meetings are held the second Tuesday of each month in the courtroom at Town Hall and the public is encouraged to attend. The Sewer Commission Office is located on the second floor of Town Hall and is opened Monday – Friday, 8:00 a.m. – 12:00 p.m.

Respectfully submitted,

David W. Kohlase, Chairman
Rye Sewer Commission

A glimpse into our past: *History of Rye, N. H., 1623-1903*, L. B. Parsons

A ROAD BY ANY OTHER NAME IS STILL A ROAD:

"From the town records we learn that the road from Rye Centre to the present Farragut House (now Central Road) was laid out in 1727, previous to that time there having been only a footpath a portion of the way. In early times that portion of this road from Meeting House hill to the Mill or Harbor road was known as Raghole road, perhaps from the quantity of ragweed that grew on the land there."

"A petition was circulated in 1783 for a highway to connect Long lane (now Lafayette road) in Portsmouth and the road "which runs by the Rye Meeting House", an attempt to secure the building of such a road by means of a lottery some years previously having failed. This petition was signed by Joseph Parsons, David Locke, and sixty-three other persons, and succeeded in its object, the court of general sessions ordering the laying out of the road and appointing a committee to lay it out and assess the damages....." Note: This road was laid out along the property line of Mark Lang, hence Lang Road.

In November of 2006, Rye entered into a contract with the City of Portsmouth to administer Rye's welfare services. The Portsmouth Welfare Department is fully staffed and has a great deal of experience with providing assistance to eligible residents in need. Perhaps even more important is their experience in helping to transition those who are receiving assistance to a situation where they can be self-sufficient again.

A report from Portsmouth Welfare Director Keith Bates follows.

Alan Gould, Town Administrator

WELFARE REPORT

2007 saw a large increase in the general assistance ("GA") cost for the Town of Rye, with the assistance jumping from \$33,560 in 2006 to \$61,770 in 2007. During this time, there was no dramatic increase in rental costs, and the total number of assisted households has remained the same, 28 or 29 each year for the past three years. As hard as it is to anticipate and budget for, this appears to be just a run of bad luck and more expensive, lengthier periods of need for a select few Rye residents. There really is no way to guard against this, by State law GA is provided to "relieve and maintain" those within the Town who are "poor and unable to support themselves". Five households alone accounted for more than \$34,000, or 55%, of the GA expenditure in 2007. These expenditures resulted from a fire, disabling injuries, abandonment by the family breadwinner, and multiple needs in a three-generation household experiencing severe health problems and interruptions in Social Security benefits. In each case, this loss of income resulted in the household's inability to provide for their most basic needs, and so the Town provided rent, utilities, transportation and other assistance while monitoring each household's progress in obtaining benefits from other sources, with the goal of reducing and ultimately eliminating their reliance on Town assistance. 21 of the 28 assisted households in 2007, representing \$44,300 of assistance provided (72% of the total), are no longer actively being seen for assistance and are effectively considered "closed cases". Most of these have relocated from Rye, a few have had their situations corrected while remaining Rye residents. The most expensive case so far, while ongoing, is secured by a lien on the household's long-term Rye home.

Reviewing the attached three-year history of GA, several line items jump out:

- **Food:** The state has experienced a well-publicized reduction in stocks at the NH Food Bank and local food pantries this year, so food expenses were up in Rye, just as we saw in Portsmouth.
- **Personal Goods:** This also resulted in an increase in "personal goods" expenditures - hygiene and cleaning supplies are often also stocked in food pantries.
- **Gasoline:** Gasoline expenses were up, as we wrote vouchers for applicants to be able to drive to work and to medical appointments.

- **Motel:** While we are seeing fewer applicants from the Rosewood Motel, referring whenever possible to Cross Roads House for people who have just landed at the Motel, the Motel does actually provide long-term housing to many households who would be paying more if they were in apartments in town, especially considering their lack of utility payments at the Motel.
- **Prescriptions:** Prescriptions are a wild card, this expense has come down considerably over the past three years, but could go up at any time.
- **Oil:** The jump in oil expense is also being experienced in Portsmouth. Fuel Assistance benefits for winter 2007-2008 had not started by the end December 2007, and we are already seeing people running out of their benefit near the end of January 2008. This expense will continue to rise in 2008.
- **Mortgage:** We have one household we are assisting with mortgage, as referenced above, but we have placed a welfare lien on this home.

RYE GENERAL ASSISTANCE EXPENDITURES

THE HISTORY OF RYE BEGAN AT ODIORNE POINT

David Thompson New Hampshire's First Settler

David was born in 1592 to parents of Scottish descent in Clerkenwell, a suburb of London. David's father and mother were in service to Sir Ferdinando Gorges, a nobleman. David was educated with the Gorges children, learning to read, write, and calculate. In 1605 Gorges moved to the seaport of Plymouth to take up command of the Plymouth Fort. In 1605 Gorges was given 5 Indians whom were kidnapped from NE by one Captain Waymouth. The Indians were housed at the fort with David who became their friend and interpreter. This relationship was the key that unlocked NE to David and his dreams. Sir Ferdinando Gorges became the principal promoter of settlement in NE and David was his protégée. In 1607 at age 14 David sailed as part of an expedition to Monhegan Island, ME, a key fishing station, and the party established a Fort St. Gorges (now Popham Beach, ME) at the mouth of the Kennebec River. David and some of the expedition returned to Plymouth in October 1607, however, Captain Popham and some men stayed the winter, but its harshness made the settlement a temporary one. In 1607 David learns building skills from his future father-in-law, William Cole, marrying his daughter in 1613 at age 21. In 1616 David sailed on an expedition to Biddeford, ME and stayed the winter to prove Englishmen could survive NE winters. That expedition also visited the Isles of Shoals and the Piscataqua region and Massachusetts Bay. He camped at Little Harbor in July of 1616 and explored the Piscataqua to Great Bay. David returned to Plymouth in 1617. In 1619 he sailed on expedition along the NE coast to better relations with the Indians and he visited, again, the Isles of Shoals and Massachusetts Bay, returning to Plymouth, Eng. in July 1619. David developed a plan for fishing from the Isles of Shoals and processing the fish on the mainland near today's Odiorne Point; a plan he sold to Plymouth merchants. In 1620 he convinced the Mayflower pilgrims to settle at Plymouth, MA instead of father south. The Mayflower sailed from Plymouth, Eng. in September 1620. In December 1620 David left Plymouth to construct a fort on Gorges orders at or near Odiorne Point and stays at Odiorne working on the fort until his return to Plymouth in January of 1622. In November of 1622 David received a grant for 6,000 acres and one island from the Gorges led Council for New England. In January 1623, David, his wife, four year old son, John (his daughter stays with grandparents in Plymouth), four or five servants, four men skilled in construction (later joined by three more), all sailed for Pannaway (Odiorne Point area) from Plymouth on the Jonathan. They dropped fishermen off at the Isles of Shoals and landed at Pannaway in the area of Little Harbor in March of 1623. David left Pannaway in the summer of 1626 to launch his trading post on Thompson's Island in Massachusetts Bay. He died, probably at Thompson's Island, in the early part of the year 1628 at age 36, an accomplished man.
